TENDER FOR UNIVERSAL SERVICE PROVISION ("USP") CLAIMS MANAGEMENT SYSTEM ("UCMS")

SECTION 1: INTRODUCTION

1. PURPOSE

1.1. The purpose of the Tender (as defined herein) is to invite supplier or vendor (hereinafter referred to as "Tenderer") to submit a proposal for the development, customisation, integration, data migration, testing, commissioning and maintenance of UCMS that shall be Oracle-based with the necessary configuration and/or customization including an Oracle-based middleware solution to support secure integration and interoperability with relevant internal and external systems.

2. MANDATORY REQUIREMENTS OF THE TENDERER

2.1. The Tenderer shall be local company that is incorporated in Malaysia and is required to have a valid certificate of registration issued by the Companies Commission of Malaysia (hereinafter referred to as "**CCM**").

2.2. The tenderer must be a member of Oracle Partner Network ("**OPN**") to support businesses in leveraging Oracle technology. A valid certificate or official letter issued by Oracle shall be provided as proof.

3. GENERAL REQUIREMENTS OF THE TENDERER (NOT APPLICABLE)

4. DEFINITION

4.1. In the Tender, unless the context requires otherwise, the following terms shall have the following meanings:

4.1.1. "**Agreement**" means the agreement between MCMC (as defined herein) and the Successful Tenderer that is required to be entered into pursuant to paragraph 29 of this Tender Document;

4.1.2. "**CMA**" means the Communications and Multimedia Act 1998 [Act 588], including any of its subsidiary legislations

and instruments made thereunder and any amendments thereto;

4.1.3. "**USP Regs**" means the Communications and Multimedia (Universal Service Provision) Regulations 2002;

4.1.4. "**Contract Sum**" means the awarded sum under the Tender by MCMC to the Successful Tenderer;

4.1.5. "**MCMC**" means the Malaysian Communications and Multimedia Commission;

4.1.6. "**DUSP**" means a Designated Universal Service Provider as defined and referred to in the USP Regs of the CMA;

4.1.7. "**USP**" means Universal Service Provision;

4.1.8. "**USPFS**" means Universal Service Provision Financial System – the existing platform currently used by the organization, which is based on Oracle technology (Oracle E-Business Suite).

4.1.9. "**Statement of Compliance**" means the formal response by the Tenderer to the technical and contractual requirements of the Tender and its compliance thereof and it shall be the basis upon which the Agreement shall be signed, if the Tenderer is successful;

4.1.10. "**Successful Tenderer**" means the successful Tenderer(s) that will be providing the Work, including its agent(s) and associate(s). For the avoidance of doubt and where the context permits, the terms "Successful Tenderer" and "Tenderer" shall be used interchangeably throughout this Tender Document;

4.1.11. "**Tender**" means the Tender No. MCMC/FD/UFMD(01)/UCMS/TC/01/2026(02) dated 21 January 2026 in respect of the Tender for Universal Service Provision ("USP") Claims Management System ("UCMS");

4.1.12. "**Tenderer**" means the entity that submits the tender submission to MCMC for the Tender pursuant to the terms and conditions of this Tender Document and the term "Tenderers" shall be construed accordingly;

4.1.13. "**Tender Document**" means this document that provides the general requirements, technical specifications and the terms and conditions for the tender submission and shall include the appendices to this document;

4.1.14. "**Tender Secretariat**" means the officer(s) from the MCMC Tender Management Unit including its director; and

4.1.15. "Work" means all works to be carried out by the Successful Tenderer specified in **Section 5** of this Tender Document and the terms and conditions of the Tender.

SECTION 2: INSTRUCTIONS TO TENDERER

5. DOCUMENTATION FEES

5.1. Payment of the total fees for this Tender Document is **Ringgit Malaysia Three Hundred Only (RM300.00)** and shall be paid via Electronic Funds Transfer (EFT) at **https://msmart.mcmc.gov.my**.

5.2. The Tenderer shall purchase this Tender Document as per **subparagraph 5.1** to participate in the Tender.

6. TENDER CLARIFICATION

6.1. Clarification regarding this Tender may be sought from the Tender Secretariat via email to **tender@mcmc.gov.my.** The period for tender clarification shall end at **5.00 pm on 4 February 2026.** Any tender clarification sought after the time specified herein will not be entertained.

6.2. All clarifications regarding this Tender shall be uploaded onto MCMC's website after the tender clarification period ends.

6.3. The Tenderer is advised to study all terms, conditions and requirements for the provisioning of the Work carefully and to make all necessary clarifications before finalising its tender submission.

7. CLOSING DATE

7.1. The tender submission shall be prepared in the manner prescribed herein and shall be submitted at the place stipulated in subparagraph 8.11 below, **on or before 12.00 noon on 11 February 2026**.

8. TENDER SUBMISSION

8.1. All submissions shall be prepared in typewritten form and in the English language.

8.2. The tender submission is divided into two (2) parts:

8.2.1. The submission on financial information and relevant details (hereinafter referred to as "**Financial Submission**") as stated in Financial Checklist under **Section 6** of this Tender Document; and

8.2.2. The submission on technical information and relevant details (hereinafter referred to as "**Technical Submission**") as stated in Technical Checklist under **Section 6** of this Tender Document.

8.3. The tender submission shall be delivered in a sealed envelope(s) marked with MCMC's tender reference (as indicated in this Tender Document) at the top right-hand corner of the envelope with the following description:

TENDER FOR UNIVERSAL SERVICE PROVISION ("USP") CLAIMS MANAGEMENT SYSTEM ("UCMS")

without indicating any brand name or the Tenderer's identity.

8.4. The Tenderer shall deliver the Technical Submission and the Financial Submission in separate envelope and at the top right-hand corner of the said envelopes, it shall be clearly stamped/printed with the words 'Technical Submission' and 'Financial Submission' respectively.

8.5. The tender submissions shall be in hardcopy and in two (2) sets, whereby one shall be marked as 'ORIGINAL' and the other shall be marked as 'COPY'. In the event of discrepancies, the document marked "ORIGINAL" shall prevail.

8.6. In addition to the hardcopy, the digital copies of the technical submission and financial submission shall be submitted in a USB flash drive. The digital copy shall be in a Searchable PDFs from the scanned documents.

8.7. The Tenderer is strictly **prohibited from displaying or including its name in the Technical Submission.** Failure to comply with the requirement specified herein may invalidate the Tenderer's tender submission.

8.8. However, for the Financial Submission, the Tenderer shall ensure that the **Tenderer's official company stamp and authorised signature appear on all pages of the Financial Submission.**

8.9. All corrections, changes, alterations and/or and other amendments whatsoever shall be initialled by the Tenderer's duly authorised officer and endorsed with the Tenderer's official stamp.

8.10. All documents including handbooks and other literatures which form part of the Tenderer's tender submission shall be properly and securely bound into one or more ring binders with durable covers and enclosed in well-sealed envelope(s). If more than one

such envelope is submitted, the envelope number and the total number of such envelopes submitted shall be marked on the outside of each envelope in the following manner:

ENVELOPE NO. X/Y (Volume)

where X is the envelope number and Y is the total number of such envelopes submitted.

8.11. The Tenderer's tender submission shall be submitted to the Tender Secretariat at **Level 1 of the MCMC Centre of Excellence (CoE)** and addressed to:

Malaysian Communications and Multimedia Commission
MCMC Centre of Excellence (CoE)
Jalan Impact, Cyber 6
63000 Cyberjaya
Selangor Darul Ehsan

(ATTN.: TENDER SECRETARIAT)

Upon submission, the Tenderer shall be required to fill in the acknowledgement form provided by the Tender Secretariat.

8.12. Failure on the part of the Tenderer to comply with the requirements specified herein may invalidate the Tenderer's tender submission.

8.13. The working file in the form of Microsoft Excel ("**Working File**") is included as part of this Tender Document for ease of reference and preparation of tender submission. In the event of discrepancies between the content of this Tender Document and the Working File, the content of this Tender Document shall prevail.

9. STATEMENTS OF COMPLIANCE

9.1. The Statements of Compliance shall be completed and submitted by the Tenderer in response to each paragraph and subparagraph of the terms and conditions of the Tender and the scope of Work as provided in **Sections 3, 4 and 5** of this Tender Document.

9.2. The Statements of Compliance are intended for the Tenderer to state:

9.2.1. Whether it has understood the intent and the meaning of the statement in a paragraph or subparagraph, whereby in this context, only such a response is required; or

9.2.2. Whether it can comply with a particular requirement, in which case, a firm statement in the affirmative or negative shall be required.

The requirements stated in **subparagraphs 9.2.1 and 9.2.2** above shall be applicable to both Statements of Compliance in **Appendix A** and **Appendix G** of this Tender Document.

9.3. If the Tenderer feels that further elaboration is needed to its response to any paragraph or subparagraph, or if the space is insufficient, the Tenderer shall provide the same in a separate sheet of paper preferably of A4 size, which shall be submitted as an annexure forming part of the Tenderer's tender submission.

9.4. The Statements of Compliance shall be a formal response by the Tenderer to the technical and contractual requirements of the Tender, and it shall be the basis upon which the Agreement shall be signed, if the Tenderer is successful. Therefore, the Tenderer shall carefully and truthfully respond to all the terms and specification stated. **The tender submission that does not comply with the instructions and requirements in this Tender Document may be rejected**.

9.5. The format for the Statements of Compliance for the technical and contractual requirements of the Tender is as shown in **Appendix A** and **Appendix G** of this Tender Document respectively.

10. TENDER PRICE

10.1. The Tenderer shall submit the offer price(s) in:

10.1.1. Form of Tender Document as provided in **Appendix B** of this Tender Document; and

10.1.2. The detailed schedule of price and summary of the schedule of price as provided in **Appendix D** of this Tender Document**.**

If the space provided is not sufficient, the Tenderer may continue on a separate sheet of paper, preferably of A4 size.

10.2. All offer prices shall be in **TYPEWRITTEN** form and every page shall be initialled by the Tenderer. All erasures, amendments and deletions in respect of the same shall also be initialled and endorsed with the Tenderer's official stamp accordingly. Improper endorsement and/or unendorsed sheets may invalidate the Tenderer's tender submission.

10.3. The price quoted shall be in **Ringgit Malaysia [amount in words] (RM) [amount in figures]**, covers the period stated in **subparagraph 47.1** below and shall be valid for a period of six (6) months from the closing date of the Tender.

10.4. The price quoted shall include any duties or taxes imposed by the Government of Malaysia and all anticipated disbursements (please provide the details in **Appendix D** of this Tender Document).

10.5. The Successful Tenderer need not necessarily be appointed based on the LOWEST quoted price. Apart from the price quoted, the evaluation of each Tenderer's proposal shall be based on other matters such as the adherence to the scope of the work, deliverables and timelines, financial, administrative and procedural requirements of the Tender, the Tenderer's prior experience and record of accomplishment and other important related information.

10.6. MCMC shall not be responsible for and shall not compensate any losses suffered by the Successful Tenderer, if the Successful Tenderer fails to recover the expected total investment.

11. BUSINESS PROFILE

11.1. The Tenderer shall complete and submit to MCMC a copy of the Business Profile Form as shown in **Appendix C** of this Tender Document.

11.2. Failure to complete the Business Profile Form **shall result in the disqualification of the Tenderer**.

11.3. The tender submission shall also include the following:

11.3.1. Background information on the Tenderer's organisation – this shall include corporate information, major clients and previous work conducted (please give specific elaboration on projects which are similar to the Tender). Details are to be provided in **Appendix C** of this Tender Document. If the Tenderer is part of a larger group of consultancy services or consortium, when providing information in this part, the particulars of the previous clients, projects and work experiences of the Tenderer shall be provided separately from those of the group or consortium;

11.3.2. The Tenderer shall be required to provide information on any litigation, suit, arbitration, adjudication and other proceedings involving the Tenderer or, for the past three (3) years including any proceedings involving the government of Malaysia and/or its agencies, proceedings involving statutory bodies and any insolvency or winding

up proceedings initiated against the Tenderer. The disclosure shall be made as part of **Appendix C** of this Tender Document; and

11.3.3. A list of all personnel who shall undertake the Work (please provide the curriculum vitae for each personnel, contribution and number of personnel during the various stages of the Work, input in man-days and daily professional fees rate).

12. TENDER DEPOSIT

12.1. The Tenderer shall deposit with MCMC a sum of **Ringgit Malaysia Ten Thousand only (RM10,000.00)** (hereinafter referred to as the "**Tender Deposit**") either in the form of a cashier's order, bank draft, bank guarantee or via telegraphic transfer. **Any tender submission without the full payment of the Tender Deposit shall be disqualified**. For the avoidance of doubt the amount stated above is a net amount, exclusive of any banking fees, exchange rate fluctuations and other fees or charges.

12.2. Payment shall be made payable to *"Suruhanjaya Komunikasi dan Multimedia Malaysia".*

12.3. If payment is by way of a telegraphic transfer, the detailed information in respect of the same are as follows:

Name of Bank	**:**	**Bank Islam Putrajaya**
Address	**:**	**Anjung Perdana, Blok E16, Parcel E, Precinct 1, 62000 Putrajaya**
Account No.	**:**	**1601-8010-0123-42**
Business ID	**:**	**ACT589**
Swift Code	**:**	**BIMBMYKL**

12.4. The Tenderer shall attach the cashier's order, bank draft, bank guarantee or proof of telegraphic transfer (as the case may be) to the Form of Tender Document (i.e. **Appendix B** of this Tender Document). **Failure to provide the Tender Deposit or proof of payment shall invalidate the Tenderer's submission**.

12.5. No interest shall be paid by MCMC on the Tender Deposit amount.

12.6. The Tender Deposit shall be returned to all unsuccessful Tenderers after the Tender has been awarded. For the Successful Tenderer, the Tender Deposit shall be dealt with in accordance with **subparagraph 29.3** of this Tender Document.

12.7. In the event the Tender is cancelled before an award is made, the Tender Deposit shall be returned accordingly to all Tenderers.

13. OMISSIONS AND ERRORS

13.1. **NO** oral, written, facsimile or otherwise transmitted information, modification or variation of the tender submission received after the Tender is closed **shall be considered**.

13.2. The Tenderer shall be **solely responsible for all such omissions and/or errors** in respect of the tender submission made. MCMC shall not entertain any request for variation of prices or tender submission of additional quotations for items left out in the original tender submission on the grounds of lack of knowledge, etc., after the Tender is closed.

13.3. Failure by the Tenderer to furnish sufficient and detailed information may render the Tenderer's tender submission liable to be rejected.

13.4. If the Tenderer is found to have knowingly submitted false information or knowingly withheld information bearing a negative impact on the Tenderer's capacity, the Tenderer's tender submission shall be disqualified.

14. PRESENTATION, DEMONSTRATION OR TRIAL

14.1. The Tenderer may be required to give a presentation, demonstration or trial regarding its proposal to MCMC. This may provide an opportunity for the Tenderer to clarify and elaborate on its tender submission but shall in no way change the original tender submission.

14.2. The Tenderer shall be informed of the date, time and location of the presentations, demonstrations or trials. **Failure on the part of the Tenderer in complying with this condition may render its tender submission invalid.**

14.3. The Tenderer shall bear all expenses related to the above-mentioned activities.

15. CONFLICT OF INTERESTS

15.1. The Tenderer shall not place itself and shall ensure that its officers, employees, agents and advisers do not place themselves, in a position that may or does give rise to an actual, potential or perceived conflict of interest between the interests of MCMC and the Tenderer during the Tender process and which impinges on the Tenderer's ability to render impartial, technically sound and objective assistance or advice, or result in an unfair competitive advantage.

15.2. The Tenderer shall be required to declare whether the Tenderer or any of its directors or any individual(s) representing the Tenderer, has any pecuniary or personal interest (either direct or indirect) that may raise a **conflict of interest** in respect of the Work that is required to be performed under this Tender Document.

15.3. The above referred declaration (hereinafter referred to as the "**Declaration of Interest**") shall be made based on the template provided in **Appendix E and Appendix F** of this Tender Document.

15.4. MCMC shall evaluate the Declaration of Interest submitted in making a decision in respect of the Tender.

15.5. Failure to submit the Declaration of Interest or making a false declaration, shall be ground for **disqualifying the Tenderer from the Tender and shall no longer be allowed to participate in future tenders**.

15.6. For purposes of a false declaration, in the event an award has been made to the Tenderer in respect of the Tender, **such award and/or Agreement (as the case may be), shall be revoked/terminated accordingly**.

15.7. In the event the Tenderer finds that there is a conflict of interest after submitting the Declaration of Interest, the Tenderer shall inform MCMC as soon as practicable and shall submit a new Declaration of Interest, if required to do so by MCMC.

(The rest of this page has been intentionally left blank)

SECTION 3: TERMS AND CONDITIONS OF TENDER

16. TERMS AND CONDITIONS OF TENDER

16.1. The Tender is subject to the following terms and conditions:

16.1.1. MCMC may engage the Tenderer to provide the Work, either for the whole Work, or any part of the Work proposed;

16.1.2. MCMC shall not be liable for any cost incurred, or work done and any report submitted to MCMC, in relation to the Tender;

16.1.3. This Tender Document serves solely as an invitation to the Tenderer to submit proposals for consideration by MCMC for the provision of the Work. **This Tender Document shall not be construed or relied upon as an offer by MCMC capable of acceptance, it does not create any obligation, commitment, or undertaking on the part of MCMC, or give rise to any legitimate expectation that MCMC will proceed with or to award any contract to the Tenderer.** MCMC reserves the absolute right, at its sole discretion, to accept or reject any proposal, cancel or modify the tender process, or take any other action it deems necessary, without incurring any liability or obligation to any party, including any costs or expenses incurred in preparing or submitting a tender;

16.1.4. The receipt of the Tenderer's tender submission by MCMC or any clarification session held, if deemed necessary, shall not give rise to any commitment, obligation, or expectation whatsoever on the part of the Tenderer that it shall be engaged for the provision of the Work. MCMC retains full discretion in the evaluation process and is not bound to proceed with any Tenderer; and

16.1.5. The Tenderer that does not comply with any of the terms and conditions of this Tender Document **shall be disqualified**.

17. TENDER SUBMISSION RECEIVED AFTER THE CLOSING DATE OF TENDER

17.1. Any tender submission, including any amendments made thereto, received after the stipulated closing date and time, shall be rejected. In this respect, the Tenderer's proof of postage or other

evidence of transmission shall not be accepted as a proof of receipt by MCMC.

18. ACCEPTANCE OF TENDER SUBMISSION

18.1. MCMC reserves the right to accept the whole tender submission or such part or parts thereof made by the Tenderer as may be decided by MCMC at its absolute discretion.

18.2. MCMC is not obligated to disclose reasons for the acceptance or non-acceptance of any tender submission and no further correspondence in connection with this Tender Document or the tender submissions shall be entertained.

19. AMENDMENTS TO TENDER DOCUMENT

19.1. At any time prior to the deadline for the tender submission, MCMC may, for any reason, whether at its own initiative or in response to a clarification requested by a Tenderer, amend this Tender Document.

19.2. The amendment(s) shall be published on the MCMC's website and shall be binding on all Tenderers.

19.3. In order to afford the Tenderers reasonable time to address the amendments in preparing their tender submissions, MCMC may at its discretion, extend the deadline for the tender submission.

20. NOTIFICATION OF TENDERER'S PRICE QUOTATION AND OUTCOME

20.1. MCMC reserves the right to publish the Tenderer's quoted price (anonymously) and to declare the Successful Tenderer with the awarded amount.

20.2. The Successful Tenderer shall be notified in writing by way of a notification of award.

20.3. All Tenderers shall note that no notification shall be sent to the unsuccessful Tenderers.

21. CHANGE IN THE COMPOSITION OF A TENDERER

21.1. MCMC reserves the right to disqualify any Tenderer that makes any change to the composition of its corporate structure after making the tender submission.

22. CONFIDENTIALITY / NON-DISCLOSURE

22.1. The Tenderer shall not advertise or issue any information, publication, document or article (including photographs or film) for publication or media release or other publicity in relation to the Tender. Where the Tenderer receives an enquiry relating to the Tender from the media, the Tenderer shall refer the person making the enquiry to MCMC and shall immediately notify MCMC of the fact that an enquiry was made. The Tenderer shall not make any other comment(s) in response to such an enquiry.

22.2. MCMC may require the Tenderer to execute a confidentiality agreement at any time during the Tender process. MCMC may exclude from its consideration, any Tenderer that fails to sign such an agreement.

22.3. Without limiting the Tenderer's obligations under **subparagraph 22.1** above, the Tenderer shall ensure that all employees, agents, contractors and subcontractors of the Tenderer and any other person to whom it discloses any of the information contemplated by **subparagraph 22.1** above, shall in each case comply with the provisions of this **paragraph 22** to the same extent as if such person had been named in this clause in the place of the Tenderer.

22.4. By making the tender submission, the Tenderer agrees that MCMC may, for the purpose of carrying out the tender evaluation, copy, use and disclose any documentation or information (whether in written, oral or electronic form) provided by the Tenderer.

23. INDUCEMENTS

23.1. The Tenderer, its personnel/employees, agents and/or subcontractors shall not under any circumstances, make an offer and/or provide any payments, loans, rewards or benefits to any employee of MCMC and/or their family members, for the purposes of inducement in respect of the Tender.

23.2. If such act(s) is found to have been undertaken, the Tenderer shall be **immediately disqualified from the Tender and shall no longer be allowed to participate in future tenders**.

23.3. If such act(s) were only discovered after the closing of the Tender and an award has been made to the Tenderer, **such award and/or Agreement (as the case may be) shall be revoked/terminated accordingly**.

24. LOBBYING OF TENDER

24.1. Any attempt by any Tenderer, including their personnel/employees, agents and/or subcontractors, to exert influence on the outcome of the Tender's assessment process by lobbying, directly or indirectly, any employee of MCMC, shall be **grounds for disqualification of the tender submission from further consideration and shall no longer be allowed to participate in future tenders.**

25. ANTI-COMPETITIVE BEHAVIOUR

25.1. In consideration of MCMC accepting the tender submission, the Tenderer represents and warrants to MCMC that:

25.1.1. It has no knowledge of the tender price or terms of any other Tenderer;

25.1.2. Except where it has notified MCMC in writing prior to its tender submission, the Tenderer has not entered into any agreement, arrangement or understanding with any other Tenderer or any recipient of an invitation to the Tender:

(i) As to who shall be the Successful Tenderer; or

(ii) Relating to the pricing or terms offered in their respective tender submissions;

25.1.3. It has not participated in any meetings with any other Tenderers or been involved in an exchange of information with any other Tenderers which, in either case, related to the Tender process or their respective tender submissions; and

25.1.4. It has not made a tender submission to MCMC which has deliberately inflated pricing in order not to be the Successful Tenderer.

25.2. The Tenderer acknowledges and agrees that MCMC is relying on the representations and warranties in **subparagraph 25.1** above when considering the tender submissions and entering into the Agreement. If the Tenderer breaches any of the representations and warranties in **subparagraph 25.1** above, MCMC may:

25.2.1. Refuse to consider the Tenderer's tender submission;

25.2.2. Take any other action that it is entitled to take at law; and

25.2.3. Withhold payments due under the Agreement which equals the amount estimated by MCMC to be the amount of losses suffered by it from the breach of **subparagraph 25.1** above, in the event MCMC discovers the breach after the Agreement is entered into.

26. LIMITATION OF LIABILITY

26.1. By virtue of this Tender Document, MCMC makes no representation or warranty whatsoever (whether express or implied, written or oral) to the Tenderer and makes no undertakings to the Tenderer, other than to invite a tender submission in the manner intended by this Tender Document.

26.2. The Tenderer shall participate in the Tender at its own risk and expense.

26.3. To the maximum extent permitted by law, MCMC, its Commission Members, Chairman, employees, officers and agents shall bear no liability or responsibility whatsoever to the Tenderer (whether based in contract, promissory estoppel, restitution, *quantum meruit*, quasi-contract, tort, statute or otherwise) in connection with or in relation to this Tender Document, or the Tenderer's participation in the Tender. Without limiting the foregoing, MCMC shall not be liable or responsible to the Tenderer in circumstances where:

26.3.1. MCMC elects not to acquire or proceed (in whole or in part) the Work that are subject to this Tender Document;

26.3.2. MCMC conducts negotiation(s) with any third party in parallel with any negotiation that it conducts with the Tenderer;

26.3.3. MCMC terminates the Tender process or any negotiation with the Tenderer;

26.3.4. The Tenderer is not selected to provide the Work that are the subject to this Tender Document;

26.3.5. Any information or data forming part of the tender submission is lost, corrupted or not received; or

26.3.6. MCMC exercises any of its rights or discretions under or in connection with this Tender Document.

27. MCMC'S DISCRETION

27.1. MCMC reserves the right, at its sole discretion, to take any of the following actions without obligation or liability:

27.1.1. Cancel the Tender at any time (either in whole or in part and whether before or after the closing date of the Tender);

27.1.2. Provide to all Tenderers any further information or addenda that has been provided to a particular Tenderer;

27.1.3. Change the Tender closing date;

27.1.4. Refuse to consider any tender submission which:

(a) is submitted by any manner that is inconsistent with this Tender Document; or

(b) has been submitted by a Tenderer who has not complied with the requirements of this Tender Document;

27.1.5. In its evaluation and assessment of the tender submissions, MCMC may:

(a) Apply such criteria as MCMC considers fit and give such weighting to that selection criteria as may be determined by MCMC (in its absolute discretion);

(b) If MCMC considers any tender submission to be ambiguous, erroneous or incomplete, then MCMC may:

(i) Refuse to consider and reject the relevant tender submission;

(ii) Request further information from the relevant Tenderer; or

(iii) Request the relevant Tenderer to amend its tender submission as MCMC sees fit;

27.1.6. MCMC may, at its sole discretion:

(a) Accept a Tenderer's tender submission for;

(b) Not proceed with;

(c) Carry out itself; or

(d) Have any other person or persons (whether or not a Tenderer who has submitted a tender submission) carry out,

all or any part of the obligations under the provision of the Work;

27.1.7. Negotiate with one or more Tenderers in relation to the terms of their tender submissions;

27.1.8. At any time retender the provision of the Work after the Tender closing date;

27.1.9. Divide the provisioning of the Work into two (2) or more parts and award contracts for those parts to different Tenderers; or

27.1.10. Require changes or modification to the provision of the Work or any technical specifications in respect of the provisioning of the Work.

27.1.11. For the avoidance of doubt, no tender submission shall be deemed accepted, nor shall any contractual relationship, obligation, or entitlement be inferred or arise in any manner, unless and until **MCMC has issued a formal notification of award or executed the Agreement with the Successful Tenderer, whichever occurs later and establishes a binding obligation**. The receipt, evaluation, or negotiation of any tender submission shall not constitute acceptance or create any obligation on MCMC to proceed with any Tenderer.

(The rest of this page has been intentionally left blank)

SECTION 4: POST-TENDER AWARD TERMS AND CONDITIONS

28. PERFORMANCE BOND

28.1. The Successful Tenderer shall be required to submit a performance bond in the form of a bank draft or bank guarantee issued by a local licensed financial institution under the Financial Services Act 2013 [Act 758] or Islamic Financial Services Act [Act 759] within one (1) month after the Tender has been awarded. This performance bond shall be equivalent in value to five per cent (5%) of the Contract Sum.

28.2. The performance bond shall be valid throughout the Work period and an additional twelve (12) months after the acceptance by MCMC of the full completion of the Work, to the satisfaction of MCMC.

29. AGREEMENT

29.1. The Successful Tenderer shall be required to enter into an Agreement with MCMC, incorporating the terms and conditions of the Tender and all other relevant provisions. The Agreement shall be prepared by MCMC accordingly and in the event of inconsistencies between the terms of the Tender and the Agreement, the terms of the Agreement shall prevail.

29.2. The Successful Tenderer shall be required to finalise the draft Agreement not later than seven (7) working days from the date of receipt of the draft Agreement from MCMC.

29.3. For the Successful Tenderer, the Tender Deposit shall only be returned after the Agreement has been properly executed and the performance bond under the Agreement has been provided.

29.4. Notwithstanding the above, in respect of the Successful Tenderer, the Tender Deposit shall be forfeited to MCMC in the following events:

29.4.1. If the Successful Tenderer refuses to sign and/or do stamping of the Agreement; or

29.4.2. If the Successful Tenderer withdraws the whole or part of its tender submission.

30. TERMS OF PAYMENT

30.1. All payments to the Successful Tenderer in respect of the Work shall be made in Ringgit Malaysia (RM).

30.2. The payment schedule shall be as follows:

No	Payment Schedule	Payment (%)
1.	Upon proper execution and stamping of the agreement, upon receipt and acceptance of the Performance Bond, and upon completion of the following: a. kick-off session with the Project team; b. first Project Steering Committee (PSC) meeting; and c. upon sign-off of the User Requirement Specification (URS) and Change Management document; subject to verification and satisfaction of MCMC.	10
2.	Upon completion of System Design Document (SDD) subject to verification and satisfaction of MCMC.	10
3.	Upon completion of System Integration Document subject to verification and satisfaction of MCMC.	10
4.	Upon System Integration Test (SIT) sign-off subject to verification and satisfaction of MCMC.	15
5.	Upon UCMS User Acceptance test (UAT) sign-off, subject to verification and satisfaction of MCMC.	25
6.	Upon completion of change management deliverable plan, subject to verification and satisfaction of MCMC.	5
7.	Upon completion of user training, subject to verification and satisfaction of MCMC.	5
8.	Production Deployment and Go-Live sign-off, subject to verification and satisfaction of MCMC.	10
9.	Upon completion of Year 1 of post-implementation warranty support with submission of annual performance report, subject to the verification and satisfaction of MCMC.	10
TOTAL		**100**

Table 1: Production Payment Schedule

(The rest of this page has been intentionally left blank)

No	Payment Schedule	Payment (%)
1.	Upon completion of Year 1 of extension of support and maintenance with submission of annual performance report, subject to verification and satisfaction of MCMC.	30
2.	Upon completion of Year 2 of extension of support and maintenance with submission of annual performance report, subject to verification and satisfaction of MCMC.	30
3.	Upon completion of Year 3 of extension of support and maintenance with submission of annual performance report, subject to verification and satisfaction of MCMC.	30
4.	Upon issuance of Certificate of Final Acceptance (CFA) and, subject to verification and satisfaction of MCMC.	10
TOTAL		**100**

Table 2: Support and Maintenance Payment Schedule

30.3. The disbursement of the first (or otherwise any) payment above is subjected to the completion of Agreement execution, submission of the Performance Bond and completion of kick-off meeting.

30.4. Subsequent payments based on schedule are subject to MCMC's acceptance of the completed work streams and related reports. All payments will be made in accordance with MCMC's stipulated payment guidelines and terms.

31. ASSIGNMENT AND SUBCONTRACTS

31.1. The Successful Tenderer shall not assign or transfer its benefits, rights or obligations related to the Work, as specified in the Agreement, or any part thereof, for any purpose whatsoever, nor engage any subcontractor to perform any part of the Work without the prior written consent of MCMC.

32. INSURANCE

32.1. The Successful Tenderer shall be required to take out and maintain at its own expense a professional indemnity insurance and such other insurance as may be necessary or reasonable in the circumstances and for an appropriate amount for any single or series of claims arising out of an event in connection with the Work performed, its personnel, agents or sub-contractors and third parties, throughout the duration of the Work implementation and

the warranty period thereafter, or for such other period as may be requested by MCMC.

33. DELAY IN DELIVERY OF SERVICES

33.1. In the event of a delay on the part of the Successful Tenderer to complete the Work within the stipulated time frame, the Successful Tenderer shall pay MCMC liquidated damages at a sum to be calculated at the rate of one percent (1%) of the Contract Sum per each day of delay for up to a maximum of twenty percent (20%) of the Contract Sum.

33.2. In any event, any delay on part of the Successful Tenderer and/or failure to complete the Work, shall be a cause for MCMC to terminate the award and/or the Agreement, as the case may be, by issuing a notice of termination. In this respect, time shall be of the essence.

34. CONFIDENTIALITY/NON-DISCLOSURE

34.1. Except with the prior written consent of MCMC, the Successful Tenderer shall not at any time communicate to any person or body or entity, any confidential information disclosed for the purpose of the provision of the Work or discovered in the course of the provision and performance of the Work, nor shall the Successful Tenderer make public, any information as to the recommendations, assessments and opinions formulated in the course of or as a result of the provision and performance of the Work.

34.2. Without limiting the Successful Tenderer's obligations under **subparagraph 34.1** above, the Successful Tenderer shall ensure that all employees, agents, contractors and subcontractors of the Successful Tenderer and any other person to whom it discloses any of the information contemplated by **subparagraph 34.1** above, shall in each case comply with the provisions of this **paragraph 34** to the same extent as if such person had been named in this clause in the place of the Successful Tenderer.

34.3. The Successful Tenderer must comply with the provisions of the Personal Data Protection Act 2010 throughout the course of the Work. All personal data collected, processed, stored, or used in connection with the delivery of the Work must be handled securely and strictly for purposes related to this engagement.

35. PROPRIETARY RIGHTS OF MCMC IN REPORTS AND RECORDS

35.1. All reports, relevant data and supporting records or materials compiled or prepared by the Successful Tenderer in the course of providing the Work shall be kept confidential by the Successful Tenderer and shall be the absolute property of MCMC throughout the period of Work and at all times thereafter.

35.2. The Successful Tenderer shall deliver all these materials to MCMC upon completion or prior termination of the award and/or Agreement, as the case may be. The Successful Tenderer may retain a copy of such data for its own record but shall not use the same for purposes unrelated to the Work without the prior written consent of MCMC.

35.3. For avoidance of doubt, it is agreed that the copyright of the reports prepared by the Successful Tenderer for the purposes of the Work shall be vested in MCMC.

36. INDEMNITY

36.1. The Successful Tenderer shall indemnify and hold harmless MCMC, its Chairman, Commission Members, officers, employees and agents against any liability, losses, damages, costs and expenses which MCMC may suffer from any claim, action, proceedings, litigation or cause of action whatsoever, where such action is based on, arises directly or indirectly from or otherwise related to the carrying out by the Successful Tenderer of the obligations under the Agreement (including the acts and/or omission of its personnel or authorised third party) including but not limited to the use or violation of any intellectual property rights.

36.2. The Successful Tenderer shall indemnify MCMC against all costs and liability arising out of the presence of the Successful Tenderer's representatives on MCMC's premises and against all liability for their injury or death whilst carrying out their duties pursuant to the Agreement and in respect of all loss or damage to their personal effects.

36.3. **Subparagraphs 36.1 and 36.2** above shall continue to have effect after the expiry or termination of the Agreement in respect of any act done by the Successful Tenderer, its personnel or any authorised third party, in the performance of the obligations under the Agreement.

37. SUSPENSION OF SERVICES

37.1. MCMC may at any time by giving not less than seven (7) working days' notice in writing to the Successful Tenderer, require the Successful Tenderer forthwith to suspend performance of the Work (or any part thereof) under the Agreement (hereinafter referred to as "**Suspension Notice**").

37.2. If MCMC has not required the Successful Tenderer to resume performance of the Work that has been suspended within a period of six (6) months from the date of the Suspension Notice, then upon the expiry of the said six (6) months period, either party may terminate the Agreement by giving the other a written notice to that effect, whereby the termination shall take effect from the date of such notice.

37.3. Upon suspension of the whole (or any part thereof) of the Work by the Successful Tenderer under **subparagraph 37.1** above, MCMC shall take immediate steps to bring to an end the Work (or any part thereof) in an orderly manner but with all reasonable speed and economy and shall discontinue making commitments in so far as practicable and shall cause to be delivered to MCMC the deliverables specified to be owned by MCMC that have been prepared by the Successful Tenderer at the date of such suspension.

37.4. If the performance of the Work (or any part thereof) is suspended, otherwise than by reason of some default by the Successful Tenderer, MCMC shall pay to the Successful Tenderer any claim(s) that are properly (and not unreasonably or prematurely) incurred by the Successful Tenderer in connection with the performance of the Work up to the date of such suspension, less all payments made by MCMC in respect of the Contract Sum and the Successful Tenderer shall accept the same as the full and final settlement in respect of the Work.

37.5. MCMC may, at any time within the period of six (6) months from the date of the Suspension Notice, require the Successful Tenderer by seven (7) working days' notice in writing, or such other period as may be agreed between the parties, to resume the performance of the Work in accordance with the provisions of the Agreement.

37.6. In the event that MCMC instructs the Successful Tenderer to resume the Work after suspension in whole or in part as a result of some default by the Successful Tenderer, then the Successful Tenderer shall not be entitled to payments whatsoever in respect of the period of suspension, save in respect of any part of the Work not so suspended nor to any costs of demobilising or re-mobilising such Work.

38. TERMINATION

38.1. MCMC may, by twenty-one (21) working days' written notice to the Successful Tenderer, terminate the Agreement if the Successful Tenderer is in breach of any fundamental terms or conditions or other provision of the Agreement and has failed to remedy the breach having been given fourteen (14) working days' written notice to do so.

38.2. Notwithstanding **subparagraph 38.1** above, MCMC may terminate the Agreement forthwith if:

38.2.1. A compromise or arrangement is proposed between the Successful Tenderer and its creditors or any class of them or between it and its members or any class of them;

38.2.2. A petition for its winding up has been presented against the Successful Tenderer in a court of competent jurisdiction;

38.2.3. The Successful Tenderer is unable to pay its debt; or

38.2.4. The Successful Tenderer ceases to carry on its business.

38.3. The failure on the part of the Successful Tenderer to perform any part of the Work within the agreed period or its extension thereof shall be construed as a breach of a fundamental term of the Agreement under **subparagraph 38.1** above, for which MCMC may exercise its right to terminate the Agreement under this paragraph.

38.4. MCMC shall be entitled, without prejudice to its rights and remedies under the law, to appoint a third party to complete the Work and all costs and expenses reasonably incurred by MCMC in this regard shall be payable by the Successful Tenderer, non-payment of which shall be a civil debt due to MCMC and shall be recoverable upon demand.

38.5. Without prejudice to **subparagraph 38.4** above, if the Agreement is terminated by MCMC pursuant to any of events specified hereinabove, MCMC shall be entitled to claim for any and all loss, damages, expenses and costs that may be suffered by MCMC as a result of the termination.

38.6. The termination of the Agreement for any cause whatsoever shall not affect any accrued rights or liabilities of either party nor the coming into or continuance in force of any provision hereof, which is expressly or by implication intended to come into or continue in force on or after such termination or cessation.

38.7. Any right or remedy to which either party is or may become entitled under the Agreement and in law or in consequence of the

other's conduct, may be enforced from time to time separately or concurrently with any right or remedy given by the Agreement or arising by operation of law and such rights and remedies are not exclusive of the other(s), but cumulative.

38.8. Notwithstanding anything to the contrary herein, MCMC may terminate this Agreement at any time during the period of the Agreement by giving twenty-one (21) working days' written notice to the Successful Tenderer.

39. TIME

39.1. Time shall be the essence of the Agreement.

(The rest of this page has been intentionally left blank)

SECTION 5: SCOPE OF WORK

Tenderer shall provide justifications or attach supporting evidence for each item proposed in **Section 5** and **Appendix G**. Evidence may include but not limited to supporting documents and/or platform screenshots.

40. BACKGROUND

40.1. MCMC manages USP projects and financials, which involve internal departments and external entities – the DUSP, also referred to as Contractors, Vendors, or Suppliers in the commercial context.

40.2. MCMC intends to produce claims processing platform for USP project namely UCMS. The UCMS shall be Oracle-based and will be fully integrated with the USP Financial System and to be designed to include digital signature, Robotic Processing Automation ("RPA") and Optical Character Recognition ("OCR") features as part of the verification process. UCMS platform offers essential technical features to support end-to-end claims processing and involve both internal departments as internal users and DUSPs as external users as shown in the table below:

No.	Type	No. Of User (appx)
1	Internal	60
2	External	120
Total		**180**

Table 3: List of Potential Internal and External Users

40.3. Proposed overview of UCMS:

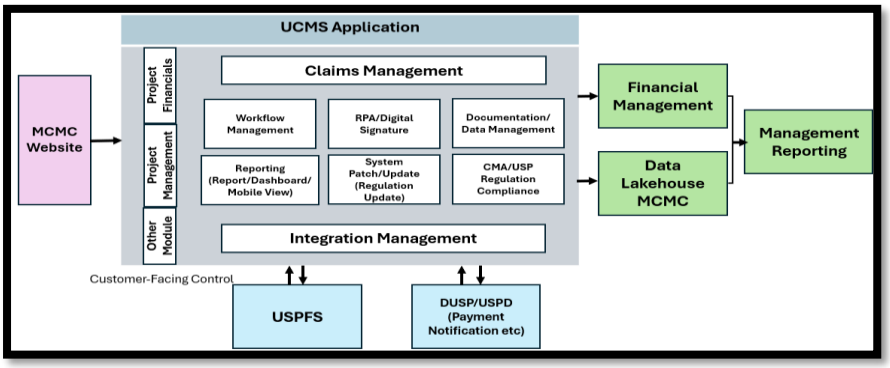

Diagram 1: UCMS architecture (high level)

40.4. As per Diagram 1 above, UCMS will serve as a single customer-facing digital gateway via the MCMC website, enabling users to submit, monitor and manage USP projects and related financial transactions in a structured and transparent manner. The system will deliver a fully integrated end-to-end lifecycle, covering project tracking, submissions, verification, approvals, payments and regulatory compliance through automated workflows and digital controls. Through seamless integration with financial systems and enterprise data platforms, UCMS will strengthen operational efficiency, governance and management oversight across the USP ecosystem.

41. SCOPE OF WORK

41.1. The Successful Tenderer is required to carry out the detailed scope of work as follows:

41.1.1. **System analysis and design**

a. Conduct requirements gathering workshops with MCMC (functional and non-functional requirements).
b. Develop and submit process flowcharts (swimlane or equivalent) for each major module to illustrate key workflows, user interactions, decision points and system integrations, as described in the high-level scope in Diagram 1. The flowcharts must be validated with MCMC during the requirements analysis phase and updated in alignment with the approved System Requirements Specification ("**SRS**").
c. Develop and submit the SRS and System Design Document ("**SDD**").
d. Design system architecture with consideration for modularity, scalability and integration readiness.
e. Define approval workflows and user interface.

41.1.2. **System development (Agile)**

a. Develop the system using Agile software development methodology, including sprint-based iterations and continuous feedback loops.
b. Conduct sprint planning and reviews in collaboration with MCMC.
c. Ensure traceability of business requirements through user stories and acceptance criteria.
d. Ensure include improving processing efficiency, reducing manual workload, increasing data accuracy, enhancing transparency and ensuring compliance with financial policies. The system integrates workflow automation, user-friendly interfaces and

real-time monitoring features to support timely and accurate claim handling.

e. Ensure full bilingual language support throughout the system in both Bahasa Malaysia and English. The language toggle must be available and consistently applied across all modules for both internal and external users.

41.1.3. **System modules (Web Application)**

1. Master Data (Digital Signature, RPA and OCR);

a. The Master Data Module establishes a centralized and governed framework for managing core enterprise data across UCMS. It defines clear **data ownership**, **validation rules** and **controlled update workflows** to ensure data accuracy, consistency and accountability throughout its lifecycle.
b. The module enables **master data referencing across UCMS project and financial modules**, ensuring a single source of truth and seamless data alignment between operational and financial processes.
c. Additionally, it supports **integration between UCMS and USPFS/Oracle E-Business Suite (EBS)** to facilitate automated data exchange for financial and vendor-related processes, reducing manual intervention, improving data integrity and ensuring synchronization across systems.
d. The submodules under Master Data comprised of:
   i. Approved Universal Service Plan / Project ID (external)
   ii. Notification of Approval (NOA) / Contract / Sub Project ID
   iii. Notice of Approval of The Variation / Variation Order (VO)
   iv. Cluster ID
   v. Site ID
   vi. Item ID
   vii. Performance Bonds
   viii. Technical Self Declaration
   ix. Extension Of Time (EOT)
   x. Litigation

2. DUSP, Subcontractors, & User Management

   i. Secure Account Creation, Delegation & Monitoring
   ii. DUSP Account Maintenance
   iii. Subcontractor Account Maintenance
   iv. User Account Maintenance (Internal / External)

v. User Matrix

3. <u>Budget Management (Digital Signature, RPA and OCR);</u>

   a. The Budget Module provides a structured mechanism for managing approved budgets and capped costs for USP projects. It supports detailed site costing, bill of quantities and cost component breakdowns aligned with approved plans and NOA.
   b. This module ensures that all claims are validated against approved budget limits, enabling effective budget control, variance monitoring and compliance with funding conditions. Any changes to approved budgets are governed through defined approval workflows to maintain financial discipline.
   c. The Budget Module integrates with Oracle EBS to ensure alignment between UCMS budget data and financial records, supporting accurate financial reporting and downstream payment processing.
   d. The submodules under Budget Management comprised of:
      i. **Financial Control**
      ii. **Approved Capped Cost**
      iii. **Site Costing**
      iv. **Bill Of Quantity (BOQ)**
      v. **Cost Component**

4. <u>Claim Management (Digital Signature, RPA and OCR);</u>

   a. The Claims Module manages the end-to-end process of USP claims, covering major contributors, advance, quarterly and yearly claims. It facilitates structured claim submissions supported by mandatory required documentations from issuance of reminder/ alert/ notice until the submission of claims.
   b. Automated validations and rule-based checks are applied to ensure claims comply with approved budgets, milestones and contractual conditions before progressing for verification and approval. This significantly reduces reliance on manual checks and spreadsheet-based verification.
   c. The module supports integration with Oracle and banking-related processes for advance claims and bank guarantees, providing traceability, audit readiness and compliance with governance requirements.

d. The submodules under Claim Management comprised of:
   i. **Invoice To MCMC (USPFS)**
   ii. **Financial Self Declaration / CEO Declaration**
   iii. **Advance Claim / Quarterly Claim / Major Contributors Claim**
   iv. **Yearly Claim**
   v. **Auditors' Declaration**
   vi. **Auditors' Working Template**
   vii. **Supporting Document**

5. Payment Processing (Digital Signature);

   a. The **Payment Processing Module** governs the approval and execution of payments arising from approved USP claims. It supports memo approvals, payment voucher generation and disbursement processing through secure and auditable workflows.
   b. Digital signatures are embedded within the approval processes to ensure authenticity, non-repudiation and compliance with internal governance and regulatory requirements. All payment-related activities are logged to provide a complete audit trail.
   c. Integration with Oracle EBS enables automated posting of approved payment vouchers, reducing manual re-entry, minimizing errors and ensuring synchronization between UCMS and the financial system.
   d. The submodules under Claim Management comprised of:
      i. **Memorandum – Payment Requisition (Preparation)**
      ii. **Memorandum – Approval for the Payment Requisition**
      iii. **Payment Voucher (USPFS)**
      iv. **Letter to DUSP**

6. Reports (Digital Signature and RPA);

   a. The **Reporting Module** provides comprehensive operational, financial and management reporting across UCMS. It delivers real-time visibility into project progress, financial utilization, claim status, payment execution and exceptions.
   b. Standardized dashboards and reports are available for DUSP performance, subcontractor progress, budget utilization and payment

tracking, supporting informed decision-making and effective oversight.

c. In addition, the module supports exception reporting and analytics powered by automation tools (e.g. RPA), enabling early detection of anomalies, risks and compliance gaps to strengthen governance and control.
d. The submodules under Claim Management comprised of:
   i. **DUSP Reports**
   ii. **Subcontractor Reports**
   iii. **Payment Reports**
   iv. **Project Progress Reports**
   v. **Financial Progress Reports**
   vi. **Budget Reports**
   vii. **Exception Reports**

7. <u>Dashboard Function (RPA);</u>

a. The **Dashboard Function** provides a centralized, real-time view of operational, financial, compliance and system performance across UCMS. Leveraging **Robotic Process Automation (RPA)** and system integrations, the dashboards consolidate data from multiple modules and external systems to deliver actionable insights, proactive monitoring and data-driven decision support for management and operational users.
b. Dashboard features required in UCMS included:
   i. **Fund Position Dashboard (High Level)**
   ii. **Project Delivery/milestone Dashboard (High Level)**
   iii. **Payment Disbursement Dashboard (High Level)**
   iv. **Compliance & Exception Dashboard**
   v. **Integration & System Dashboard**
   vi. **Project & Site Monitoring Dashboard**
   vii. **Claims & Payment Status Dashboard**
   viii. **Budget Utilisation Dashboard**
   ix. **DUSP/Subcontractor Performance Dashboard**
   x. **Security & Backup Monitoring Dashboard**
   xi. **Exception & Workflow Dashboard**
   xii. **Dynamic Data Export Report (Excel (.xlsx downloadable)**

8. Audit Trail;

   a. The Audit Trail function records a complete, secure and time-stamped log of all user and system activities within UCMS, ensuring transparency, accountability and traceability across all modules.
   b. It captures key actions such as data changes, approvals, payments, integrations and automated processes, together with essential metadata for audit and compliance purposes.
   c. This function supports governance, risk and compliance by enabling activity review, transaction reconstruction and regulatory verification, with protected records and search and reporting capabilities for audits and management oversight.

9. Self Service Application;

   a. The Self-Service Application enables authorized users, including DUSPs, subcontractors and internal MCMC users, to independently submit, manage and track USP-related transactions within UCMS through secure, role-based access.
   b. It supports claim submissions, document uploads, approval and payment tracking, real-time notifications and guided workflows with built-in validations to ensure accuracy and compliance.
   c. All activities are secured through centralized authentication, governed by role-based permissions and fully captured in the audit trail, reducing manual intervention and enabling a standardized, efficient and scalable digital operating model.

10. Value Added Function;

   a. The Value-Added Function enhances UCMS beyond core transactions by introducing intelligent analytics, automation and governance capabilities that support better decision-making and operational efficiency.
   b. It leverages historical claims, payment and project data to provide trend analysis, predictive insights and early detection of risks, anomalies, cost overruns and compliance issues, enabling proactive management and timely intervention.
   c. Automation features such as RPA, smart validations and exception handling reduce manual

effort, improve turnaround time and strengthen control through automated reconciliations, alerts and performance monitoring.

d. The function also supports long-term sustainability by enabling scalability, configurable business rules, performance benchmarking and future system enhancements, ensuring UCMS remains adaptive to evolving regulatory, operational and technological requirements.

41.1.4. **System Integration**

a. Integrate the platform with internal system which is USP Financial System (Oracle Platform).
b. Ensure secure Application Programming Interface (API) exchange and data validation mechanisms.
c. Centralized authentication via Active Directory with seamless integration to Oracle, and Digital Signature, ensuring data integrity and synchronization.

41.1.5. **AI-powered document validation and fraud detection**

a. Develop and implement an intelligent document analysis engine that uses AI and Machine Learning ("**ML**") algorithms to validate supporting documents submitted by end-users.
b. Automate the verification of document information and data consistency using Optical Character Recognition ("**OCR**").
c. Extract key information from uploaded documents.
d. Detect document tampering, duplication or forgery.
e. Identify expired, altered, or mismatched documents.
f. Develop machine learning models to detect fraudulent claims.
g. Support configurable fraud thresholds.
h. Integrate AI validation into claim submission and approval workflows.
i. Enable real-time and batch processing.
j. Provide AI-generated insights and record all AI decisions in audit logs.

41.1.6. **Security and compliance**

a. Implement strong access control such as Azure AD Single Sign-On (SSO), multi-level access control and encryption of data at rest and transit.

41.1.7. **System Testing and acceptance**

a. To conduct three (3) phases of testing:
   i) User Acceptance Testing (UAT)
   ii) Final Acceptance Testing (FAT)
   iii) System Integration Testing (SIT)
b. To fix any bugs and errors captured during the UAT and FAT within the agreed project timeline.
c. To ensure the application and system meet the requirements, specification, functionality, integration and performance needs.

41.1.8. **Penetration Testing**

a. The Tenderer shall perform Pentest by a recognised PENTEST company and remediate all the findings prior to any go-live or production deployment.
b. Must include both Blackbox and Whitebox testing.
c. Web Application Penetration Test (WAPT) that includes:
   i) Web Services Identification
   ii) Application Process Flow Assessment
   iii) Web Application Vulnerabilities Tests & Findings
   iv) Exploit Test & Verification
d. To provide sign-off report (Final Report)
   i) Must be signed by the Pentester and the Developer
   ii) Items to be included in the report:
      - Executive Summary
      - Introduction
      - Scope
      - Vulnerability Summary:
        - Assessment Summary (no. of Critical, High, Medium and Low)
        - Post Review Summary (no. of Critical, High, Medium and Low)
      - Conclusion

41.1.9 **Change Management**

a. To propose and provide change plan documentation, checklist and report.
b. To adhere to the change management procedure:
   i) During Project Implementation – Steering Committee (consisted of MCMC and Successful Tenderer) approval
   ii) After Go-Live – Change Advisory Board (CAB) approval
c. The Successful Tenderer to propose and analyze the as-is and the to-be processes, generate the process

mapping and the new structure on resources allocation.

41.1.10 **Deployment**

a. Deploy the system on staging and production environments compliant with MCMC's hosting policy
b. Conduct Go-Live commissioning and final data validation

41.1.11 **Documentation and handover**

a. Prepare and deliver technical documentation, user manuals and training materials for the administrator.
b. Conduct administrator training sessions
c. The source code should be handed over to MCMC once the development is completed

41.1.12 **Backup and Restore Requirements**

a. The Tenderer shall recommend the backup storage and propose a backup & restore procedure for the system application and database and the dimensioning used for the duration of the backup and restoration process.
b. The Tenderer shall provide comprehensive documentation on backup and restore procedures.
c. System backup and restore plan must be comprehensive with daily, weekly, monthly and yearly backup schedules.

41.1.13 **Training**

a. Prepare and deliver user manuals and training materials for the end-user.
b. Conduct end-user training sessions.
c. Collect feedback and perform system enhancements during warranty support period with no additional charges if required.
d. The Successful Tenderer must provide sufficient training to ensure effective knowledge transfer, enabling MCMC personnel, service providers, and outsourcing partners to fully maintain, fine-tune, configure, and enhance the solution after the Go-Live date.
e. Knowledge transfer must include, but is not limited to, product training (e.g., software, development tools), project team training, helpdesk training/briefing, system administration training, and infrastructure training.

41.1.14 License Management

a. The Successful Tenderer must quote any related software that is part of the UCMS solution (e.g. digital signature license, database license, application server, reporting tool, etc.
b. The Successful Tenderer shall provide UCMS Administrator licenses subscriptions for a minimum of 60 users (internal) and UCMS licenses subscriptions for approximately 180 – 250 users (external) per year.
c. Application Server: Specify the application server software needed to host and run the UCMS effectively. Mention any additional licensing or setup costs associated with the application server.
d. Reporting Tool: Propose a reporting tool that enables comprehensive and customisable reporting capabilities for UCMS data analysis and decision-making. Provide information on licensing and integration costs, if any.
e. Integration Tools: If there are any specific integration tools required for integrating the UCMS with other systems (e.g., USPFS & Digital Signature), the Tenderer should specify them and include relevant pricing details.
f. Customisation Services: If any additional customisation or development work is required for the UCMS to meet MCMC's future needs, the Tenderer should be able to specify feasibility details on allowed customisation of the system.

41.1.15 Post-implementation Support

a. Provide 12 months of warranty and support with defect rectification and performance monitoring continue with the 36 months of extended Support & Maintenance services. The warranty shall commence after Go-Live of the UCMS.

b. To assign one (1) Resident Engineer (RE) to be stationed at MCMC Headquarters, who shall act as the first level support to MCMC for all technical issues, system monitoring and operational. The RE shall always be available to support 24/7 operations, including on-call support as required and shall liaise closely with MCMC’s technical.
c. Adhere to the following minimum SLA standards throughout the support period:
   i) **System Availability:** Minimum 99.9% uptime per calendar month
   ii) **Incident Response Time:**

- Critical (System down): Response within 30 minutes, resolution within 4 hours.
- High (Major functionality issue): Response within 30 minutes, resolution within 6 hours.
- Medium (Minor issues or intermittent errors): Response within 30 minutes, resolution within 12 hours.
- Low (Cosmetic/ UI/ non-urgent): Response within 4 hours, resolution within 24 hours.

iii) **Support Coverage:** 24 hours/ 7 days a week

iv) **Escalation Procedures:** Clear process for issue escalation, including points of contact, timelines and tracking

v) **Reporting:** Submit a monthly support performance report detailing system uptime, incidents, response and resolution metrics and improvement actions taken.

42 OTHER WORK REQUIREMENTS

42.1 The Successful Tenderer shall carry out project kick-off and progress meetings (e.g., weekly sprints, monthly reviews), including documentation, prepare meeting minutes (MoM) and provide accurate and timely inputs to MCMC as and when required.

42.2 The Successful Tenderer shall provide a dedicated Project Manager to coordinate every aspect of the Work, including internal coordination, stakeholder engagement, documentation management and issue escalation.

43 PERSONNEL

43.1 The Tenderer shall comprise at least the following key personnel:

Key Personnel	Key Expertise	Minimum Experience	Preferred Qualifications
Project Manager	Project planning, risk & budget control, stakeholder and vendor management	7+ years managing IT/financial system projects	PMP / PRINCE2 certification; experience delivering claims or grant systems
Solution Architect	System architecture, security design, integrations, data governance	8+ years in enterprise architecture	Prior design of financial, ERP, or claims systems
System Analyst	System requirements	5+ years in system analysis	Experience translating claim

Key Personnel	Key Expertise	Minimum Experience	Preferred Qualifications
	analysis, functional & technical specifications, workflow design	for financial or workflow-based systems	business rules into system specifications
UI/UX Designer	Workflow automation, secure application development, dashboards & reporting	5+ years in software development	Experience building financial or transaction-based systems
System Developer	Claims logic implementation, workflow automation, system integration	5+ years developing enterprise financial or claims systems	Experience developing secure, audit-ready financial applications
Quality Assurance/ Test Engineer	Test planning, UAT coordination, defect management, regression testing	5+ years in system testing	Experience testing finance, grant, or reimbursement systems
Security/ Compliance Specialist	Data privacy, access control, encryption, security risk assessment	5+ years in IT security	Knowledge of ISO 27001, GDPR, or equivalent standards

Table 4: UCMS Key Personnel

43.2 The Tenderer shall provide qualified and competent personnel to undertake the Work.

43.3 The Tenderer shall list all personnel involved in the Work, including their curriculum vitae (CV) in **Appendix H**.

44 EQUIPMENT

All equipment required for the Work, including licensed software, development and testing tools, workstations, test servers, communication devices and any third-party services required for integration testing, shall be supplied or made available by the Successful Tenderer, including any cloud based in infrastructure or services proposed as part of the solution, with all associated costs and payments to be borne by the Successful Tenderer.

45 PAST PROJECT EXPERIENCE

The Tenderer shall provide detailed information on past project experience within the last 5 years.

46 REPORTS AND PRESENTATIONS

46.1 MCMC may require the Successful Tenderer to prepare reports and/or presentations in relation to the Work for internal briefing, stakeholder consultations and management updates.

46.2 All reports and presentations that are required to be prepared by the Successful Tenderer shall be duly submitted within the specified timeline.

46.3 The Tenderer is also required to provide detailed documentation of each component (timeline, design, hardware, software, licence, etc.)

47 DURATION

47.1 The Work (as a whole) shall be completed within **67 months** from the date of the Letter of Award ("LOA"), unless the timeline is further extended by MCMC accordingly. Tenderer to provide a detailed project timeline, including a delivery schedule and implementation plan. The detail of The Work as per table below:

No.	Details	Months
1	Development	16
2	Testing, User Acceptance Test and Penetration Testing	3
3	Warranty Support	12
4	Extended Support and Maintenance	36
Total		**67**

Table 5: UCMS Project Timeline

47.2 In this respect, the Work may be subject to milestones, which may have specific timelines that the Successful Tenderer needs to comply with.

48 INDICATIVE PRICE

48.1 The indicative price for the Work is **Ringgit Malaysia Three Million Five Hundred Thousand Only (RM3,500,000.00)** inclusive of any duties or taxes imposed by the Government of Malaysia.

48.2 The indicative price stated above is only an estimated value and does not bind MCMC or any other party so as to clear any confusion or doubt that may arise.

48.3 MCMC does not guarantee that the Tenderer will be selected or be able to complete the Work by mere reliance on the indicative price.

49 INTELLECTUAL PROPERTY

49.1 MCMC shall be the sole and absolute owner of any customisation for the application, and all source code and documentation should be handed over to MCMC upon the issuance of Certificate of Final Acceptance sign off.

49.2 Tenderer must ensure that all intellectual property rights in and to UCMS are fully assigned to the MCMC upon the date stipulated.

50 ADDITIONAL REQUIREMENTS

50.1 The Successful Tenderer shall be available on standby to address any ad hoc queries related to the scope of work and shall provide the necessary response in a timely manner.

50.2 The Successful Tenderer shall submit the comprehensive quotation detailing the cost for implementation and the extended support services for the whole Work duration of 67 months. MCMC has absolute discretion in deciding whether to accept, reject or amend the price quoted during proposal submission.

APPENDIX A

STATEMENT OF COMPLIANCE TO THE TERMS AND CONDITIONS OF TENDER AND POST-TENDER AWARD

The Tenderer shall use the format as attached, to present all paragraphs or subparagraphs (in strict sequential order) in **Sections 3 and 4 of this Tender Document.**

The format as shown here is divided into four (4) columns. They shall be used in the following manner:

Column (1) : State, in strict sequential order, the paragraph and/or subparagraph number (the Tenderer's response shall be stated for each and every paragraph (e.g. paragraph 16) and subparagraph (e.g. 16.1, 16.1.1, 16.1.5 etc.) of the Tender.

Column (2) : The Tenderer shall state its response in this column with the notation "Agreed to" or "Not agreed to" or "Complied with" or "Not complied with".

Column (3) : Give suitable explanation or information or qualifying statements. Statements like "Noted" are acceptable only against those paragraphs which do not require Tenderer to make a commitment.

"Understood" and such like statements are not acceptable.

Where "Agreed to" is stated in Column (2), any explanation or information or qualifying statement shall not contradict the contents of the relevant paragraph.

Where "Not Agreed to" is stated in Column (2), the Tenderer may make alternative proposals.

Column (4) : If any annexure is attached, they shall be clearly mentioned and notified in this column.

APPENDIX A

APPENDIX C

FORM FOR BUSINESS PROFILE

1. BUSINESS INFORMATION

(All information shall be kept confidential)

1.1 Name of Entity:
1.2 Company/Business Registration No.:
1.3 Tax Identification No.:
1.4 Address:
1.5 Homepage/Website:
1.6 Status of Incorporation:

1.6.1 Sole Proprietor / Partnership / Enterprise /Sendirian Berhad / Berhad / Private Limited / Limited

1.6.2 Attach a copy of:
1.6.2.1 Articles of Association (if available)
1.6.2.2 Memorandum of Association (if available)

1.7 Address of Headquarters or Main office, if different from 1.3.
1.8 Date incorporated
1.9 Date of operation
1.10 Paid up capital
1.11 Shareholders' Fund
1.12 Notice of Incorporation
1.13 Directors' Report (Optional)
1.14 Bumiputera Status: Yes/No
1.15 Bank details of your company (for refund of your Tender Deposit)

2. COMMERCIAL BACKGROUND OF ENTITY

2.1 General background of Tenderer
2.2 Experiences
2.3 Number of employees
2.4 Curriculum Vitae (CV) of the Project Team

3. ATTACHMENT

Please refer to item 3 of Financial Checklist under Section 6 of this Tender Document.

(the rest of this page has been intentionally left blank)

4. PREVIOUS WORK CONDUCTED

as per requirement in subparagraph 11.3.1 and Financial Checklist no.3 (vii) of this Tender Document

(Please give specific elaboration on projects related to the Tender)

No.	Previous Client(s)	Project Title	Date of Award and Duration (Month/Year)	Project Amount (RM)

5. DISCLOSURE ON LITIGATION CASES

(As per requirement in subparagraph 11.3.2 of this Tender Document)

No.	Year	Case Name	Status/Remark

FORM C – FINANCIAL DETAILS

A. Summary of property & liability as posed in Balance Sheet that was audited in the last financial year

1. MCMC TENDERER'S DECLARATION

TENDER FOR UNIVERSAL SERVICE PROVISION ("USP") CLAIMS MANAGEMENT SYSTEM ("UCMS")

TENDER NO.:
MCMC/FD/UFMD(01)/UCMS/TC/01/2026(02)

I, (**Name of Authorised Company/Business Representative**), NRIC No. _____ representing (**Name of Company/Business**) ("**Company**") with registration number **(Company/Business Registration No.)** hereby declare that I, or any individual(s) representing the Company, shall not offer or give bribes to any individual(s) in the Malaysian Communications and Multimedia Commission or any other individual(s), as an inducement to be selected in the aforementioned tender. I attach herewith a Letter of Authorisation which empowers me, as a representative of the Company, to make this declaration.

2. If I, or any individual(s) representing the Company, is offering or giving any bribes to any individual(s) in the Malaysian Communications and Multimedia Commission (MCMC) or any other individual(s) as an inducement to be selected in the aforementioned tender, I hereby agree, as a representative of the Company, for the following actions to be taken:

(a) Revocation of the award made in respect of the aforementioned tender;

(b) Termination of the Agreement entered into in respect of the aforementioned tender; and/or

(c) Other actions, at MCMC's absolute and sole discretion.

3. In the event where there is any individual(s) who attempts to solicit any bribe from me or any individual(s) related to the Company as an inducement to be selected for the aforementioned tender, I hereby pledge to immediately report such act(s) to the Malaysian Communications and Multimedia Commission (MCMC) and the Malaysian Anti-Corruption Commission (MACC).

Sincerely,

……

APPENDIX F

DECLARATION OF INTEREST BY TENDERERS

I, ...NRIC/Passport No.: ..... being the authorised representative of ……. **(Name of Company/Business) (Company/Business Registration No. XXXXX)("Company")** hereby declare that:

☐ the Company and/or its directors or any other individuals representing the Company **does not have** any pecuniary and/or personal interest, direct or indirect, that would create a conflict of interest in respect of the work or services that is required to be performed under the Tender No. MCMC/FD/UFMD(01)/UCMS/TC/01/2026(02)

☐ the Company and/or its directors or any other individuals representing the Company **does have** a pecuniary and/or personal interest, direct or indirect, that would create a conflict of interest in respect of the work or services that is required to be performed under the Tender No. MCMC/FD/UFMD(01)/UCMS/TC/01/2026(02). The particulars of the interest are as follows:

_____
_____
_____

It is also hereby acknowledged and agreed that:

1) the Company shall make another declaration to state any change in any matter contained in this declaration within one (1) month after the change occurs and shall provide further information on the particulars contained in this declaration if so required by the MCMC; and

2) failure to make the required disclosure of interest to MCMC may entail the following actions to be taken:

   - revocation of the award made in respect of the aforementioned tender;
   - termination of the Agreement entered into in respect of the aforementioned tender; and/or
   - other actions, including blacklisting of the Company from future tenders, at MCMC's absolute and sole discretion.

Sincerely,

……

APPENDIX G

STATEMENT OF COMPLIANCE TO THE TERMS AND CONDITIONS OF SCOPE OF WORK AND SPECIFICATION

The Tenderer shall use the format as attached, to present its response to all paragraphs or subparagraphs (in strict sequential order) in **Section 5 of this Tender Document.**

The format as shown here is divided into five (5) columns. They shall be used in the following manner:

Column 1: State in strict sequential order, the paragraph or subparagraph number.

Column 2: Description of specification.

Column 3: The Tenderer shall state responses in this column with the notation "Comply" or "Not Comply".

"Understood" statement is not acceptable.

Column 4: This column shall be used when explanations and information justifications and evidence that are explicitly requested by the paragraph or the subparagraph. Explanations or conditions which if made would allow it to comply, shall also be stated here as well as explanation of partial compliances.

Further, Tenderer may also provide explanations, information, justifications and/or attach supporting evidence, where applicable, for MCMC's assessment.

Column 5: If any annexures are attached, they shall be clearly mentioned and notified in this column.

APPENDIX G

STATEMENT OF COMPLIANCE TO THE TERMS AND CONDITIONS OF SCOPE OF WORK AND SPECIFICATION

Tenderer shall provide justifications or attach supporting evidence for each item proposed to the Statement of Compliance to Section 5 at "**Tenderer's Response / Proposal**" column in the table below.

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
40	**BACKGROUND**			
40.1	MCMC manages USP projects and financials, which involve internal departments and external entities – the DUSP, also referred to as Contractors, Vendors, or Suppliers in the commercial context.			
40.2	MCMC intends to produce claims processing platform for USP project namely UCMS. The UCMS shall be Oracle-based and will be fully integrated with the USP Financial System and to be designed to include digital signature, Robotic Processing Automation ("RPA") and Optical Character Recognition ("OCR") features as part of the verification process. UCMS platform offers essential technical features to support end-to-end claims processing and involve both internal departments as internal users and DUSPs as external users as shown in the table below:			

<table>

</table>

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
40.4	As per Diagram 1 above, UCMS will serve as a single customer-facing digital gateway via the MCMC website, enabling users to submit, monitor and manage USP projects and related financial transactions in a structured and transparent manner. The system will deliver a fully integrated end-to-end lifecycle, covering project tracking, submissions, verification, approvals, payments and regulatory compliance through automated workflows and digital controls. Through seamless integration with financial systems and enterprise data platforms, UCMS will strengthen operational efficiency, governance and management oversight across the USP ecosystem.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
41	**SCOPE OF WORK**			
	The Successful Tenderer is required to carry out the detailed scope of work as follows:			
41.1.1	**SYSTEM ANALYSIS AND DESIGN**			
	a. Conduct requirements gathering workshops with MCMC (functional and non-functional requirements). b. Develop and submit process flowcharts (swimlane or equivalent) for each major module to illustrate key workflows, user interactions, decision points and system integrations. The flowcharts must be validated with MCMC during the requirements analysis phase and updated in alignment with the approved System Requirements Specification ("SRS"). c. Develop and submit the SRS and System Design Document ("SDD"). d. Design system architecture with consideration for modularity, scalability and integration readiness. e. Define approval workflows and user interface.			
41.1.2	**SYSTEM DEVELOPMENT (AGILE)**			
	a. Develop the system using Agile software development methodology, including sprint-based iterations and continuous feedback loops. b. Conduct sprint planning and reviews in collaboration with MCMC. c. Ensure traceability of business requirements through user stories and acceptance criteria.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
	d. Ensure include improving processing efficiency, reducing manual workload, increasing data accuracy, enhancing transparency and ensuring compliance with financial policies. The system integrates workflow automation, user-friendly interfaces and real-time monitoring features to support timely and accurate claim handling. e. Ensure full bilingual language support throughout the system in both Bahasa Malaysia and English. The language toggle must be available and consistently applied across all modules for both internal and external users.			
41.1.3	**SYSTEM MODULES (WEB APPLICATION)**			
1.	**MASTER DATA (DIGITAL SIGNATURE, RPA AND OCR)**			
	a. The Master Data Module establishes a centralized and governed framework for managing core enterprise data across UCMS. It defines clear **data ownership**, **validation rules** and **controlled update workflows** to ensure data accuracy, consistency and accountability throughout its lifecycle. b. The module enables **master data referencing across UCMS project and financial modules**, ensuring a single source of truth and seamless data alignment between operational and financial processes. c. Additionally, it supports **integration between UCMS and USPFS/Oracle E-Business Suite (EBS)** to facilitate automated data exchange for financial and vendor-related processes, reducing manual intervention, improving data integrity and ensuring synchronization across systems. d. The submodules under Master Data comprised of the below:			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
41.1.3. 1. d. i.	**APPROVED UNIVERSAL SERVICE PLAN/PROJECT ID**			
	Has the ability to create a Project ID for the approved Universal Service Plan/s (Plan) and digitally centralize the plan in UCMS repository for cross referencing for technical/physical implementation phases/milestones and financial milestones of USP projects.			
	To allow integration of Draft Plans with other UCMS modules (e.g., budgeting, claims processing, performance monitoring) to ensure consistency and traceability across the system.			
	To support secure storage, retrieval and archival of Draft Plans and scope documents within the UCMS environment. The Draft Plan comprises the relevant proposals, summary cost per site, Bill of Quantities and other related documents. Project ID is the first-tier unique identifier of the USP Projects.			
41.1.3. 1. d. ii.	**NOTIFICATION OF APPROVAL (NOA) / CONTRACT/SUB PROJECT ID**			
	Has the ability to create a Sub Project ID and record the salient NOA details in the UCMS.			
	To support system integration with USPFS for validation and cross-checking of NOA.			
	To allow automated referencing of NOA during claims processing – verification, review and approval. The NOA includes the main document (contract) together with its appendices. Sub Project ID is the second-tier unique identifier of the USP Projects.			
41.1.3. 1. d. iii.	**NOTICE OF APPROVAL OF THE VARIATION / VARIATION ORDER (VO)**			
	Has the ability to create VO ID and the track scope, cost, or timeline changes for the NOA for reference of the subsequent processes (validation, update and approval).			
	To support USPFS-linked validation to ensure variations are controlled and authorised.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
	To allow integration of variation records with claims and project progress for audit and reporting.			
41.1.3. 1. d. iv.	**CLUSTER ID**			
	Has the ability to create/generate/assign a unique identifier for USP cluster ID for structured database referencing.			
	To support streamlined tracking for claims and reporting across related project clusters.			
	To allow linkage of claims, variations and deliverables to a common cluster reference. Cluster ID is the third-tier unique identifier of the USP Projects.			
41.1.3. 1. d. v.	**SITE ID**			
	Has the ability to create/generate/assign a unique identifier for individual sites within a USP project cluster.			
	To support detailed tracking of project activities, claims and deliverables at site level.			
	To allow consolidated reporting and roll-up of site-level data (BOQ) for cluster level. Site ID is the fourth-tier unique identifier in USP projects.			
41.1.3. 1. d. vi.	**ITEM ID**			
	Has the ability to define project deliverables or billable units for budget/cost allocation.			
	To support accurate validation of claims, invoices and payments against Item IDs.			
	To allow cost control and auditing of deliverables.			
41.1.3. 1. d. vii.	**PERFORMANCE BONDS**			
	Has the ability to record, monitor and validate performance bond submitted by DUSPs.			
	Able to prompt addition, expiration, EOT, renewal, variation for control and reporting of performance bond periodically/real time.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
	Able to integrate/validation check with USPFS prior to disbursement of claims.			
	Has the ability to cross-check performance bond validity against claims submitted by DUSP.			
41.1.3. 1. d. viii.	**TECHNICAL SELF DECLARATION**			
	Has the ability to capture DUSP self-declarations of project technical compliance.			
	To support validation of declarations as part of claims submission, cross-referencing with NOA's payment milestone and approval workflow.			
	To allow storage and retrieval of compliance evidence for governance and audit purposes.			
41.1.3. 1. d. ix.	**EOT (EXTENSION OF TIME)**			
	Has the ability to capture requests and create EOT ID for project timeline extensions from DUSP.			
	To support structured approval workflows for EOT requests within the UCMS.			
	To allow integration of approved EOT with USP project progress/milestone and claims.			
41.1.3. 1. d. x.	**LITIGATION**			
	Has the ability to record disputes or legal cases associated with all USP projects for all DUSP.			
	To support governance and audit functions by tracking litigation status and resolution.			
	To allow integration of litigation records with project, claims and compliance modules for legal risk reporting.			
2.	**DUSP, SUBCONTRACTORS & USER MANAGEMENT**			
41.1.3. 2. d. xi.	**SECURE ACCOUNT CREATION, DELEGATION & MONITORING**			
	Has the ability to ensure secure creation and management of accounts for DUSPs, subcontractors and users within the UCMS.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
	To support monitoring and audit of delegated access, ensuring compliance with governance requirements.			
	To allow role-based delegation and traceability of user activities for accountability.			
41.1.3. 2. d. xii.	**DUSP ACCOUNT MAINTENANCE**			
	Has the ability to create, record, maintain and update new/existing DUSP key information namely business registration number, bank account information, list of key management/personnel.			
	To allow integration with USPFS for key information and payment transactions.			
41.1.3. 2. d. xiii.	**SUBCONTRACTOR ACCOUNT MAINTENANCE**			
	Has the ability to capture and create unique ID for DUSP's subcontractor.			
	Has the ability to capture subcontractor invoices and the relevant salient details.			
41.1.3. 2. d. xiv.	**USER ACCOUNT MAINTENANCE (INTERNAL / EXTERNAL)**			
	Has the ability to manage system user accounts including creation, updates, suspension and termination.			
	To support workflow continuity by assigning replacement access where authorised.			
	To allow integration of user account data with the UCMS approval matrix for access control.			
41.1.3. 2. d. xv.	**USER MATRIX**			
	Has the ability to define all internal and external user roles, access levels and permissions within the UCMS.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
	To support segregation of duties to ensure no conflict in approval, submission, or verification processes.			
	To allow governance, auditability and compliance checks on all user role assignments.			
3.	**BUDGET MANAGEMENT (DIGITAL SIGNATURE, RPA AND OCR)**			
	a. The Budget Module provides a structured mechanism for managing approved budgets and capped costs for USP projects. It supports detailed site costing, bill of quantities and cost component breakdowns aligned with approved plans and NOA. b. This module ensures that all claims are validated against approved budget limits, enabling effective budget control, variance monitoring and compliance with funding conditions. Any changes to approved budgets are governed through defined approval workflows to maintain financial discipline. c. The Budget Module integrates with Oracle EBS to ensure alignment between UCMS budget data and financial records, supporting accurate financial reporting and downstream payment processing. d. The submodules under Budget Management comprised of the below:			
41.1.3. 3. d. i.	**FINANCIAL CONTROL**			
	Has the ability to enforce financial control and compliance (e.g approved capped cost vs proposed expenditure, project physical milestone vs financial milestone).			
	To allow integration of budgetary controls with claims and project monitoring modules.			
41.1.3. 3. d. ii.	**APPROVED CAPPED COST**			
	Has the ability to list, tabulate, define and update approved capped cost.			
	To be able to validate with USPFS for budget monitoring purposes.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
	To automatically validate claims submitted against approved capped cost upon submission.			
	To be able to prompt alerts, reporting and controls when submissions approach or exceed capped amounts.			
41.1.3. 3. d. iii.	**SITE COSTING**			
	Has the ability to capture detailed costing at site level.			
	To support reconciliation between modules within UCMS (e.g. budget vs subsidiary ledgers) for site expenditure validation.			
	To allow site-level cost reporting consolidated at project and cluster level.			
41.1.3. 3. d. iv.	**BILL OF QUANTITY (BOQ)**			
	Has the ability to maintain itemized lists of works, services and materials with defined quantities and costs.			
	To support validation of claims and payments against the BOQ for approved capped cost / budget control purposes.			
	To allow automated linkage of BOQ line items to project deliverables and claims milestone.			
41.1.3. 3. d. v.	**COST COMPONENT**			
	Has the ability to define and track cost categories (e.g., preliminaries, CME works, etc) for full tracking, monitoring and transparency.			
	To support allocation of claims and expenditure into standardised cost components (e.g software cost / shared cost).			
	To allow generation of cost analysis reports for decision-making and audit purposes.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
4.	**CLAIMS MANAGEMENT (DIGITAL SIGNATURE, RPA AND OCR)**			
	a. The Claims Module manages the end-to-end process of USP claims, covering major contributors, advance, quarterly and yearly claims. It facilitates structured claim submissions supported by mandatory required documentations from issuance of reminder/alert/notice until the submission of claims. b. Automated validations and rule-based checks are applied to ensure claims comply with approved budgets, milestones and contractual conditions before progressing for verification and approval. This significantly reduces reliance on manual checks and spreadsheet-based verification. c. The module supports integration with Oracle and banking-related processes for advance claims and bank guarantees, providing traceability, audit readiness and compliance with governance requirements. d. The submodules under Claim Management comprised of the below:			
41.1.3. 4. d. i.	**INVOICE TO MCMC (USPFS)**			
	Has the ability to create Submission ID upon submission of master invoices (and the sub documents) from DUSP through UCMS-USPFS integration.			
	To support validation of master invoice data against approved capped cost for budgeting control and monitoring purposes.			
	To allow real-time status update / reconciliation between UCMS and USPFS financial records.			
41.1.3. 4. d. ii.	**FINANCIAL SELF DECLARATION / CEO DECLARATION**			
	Has the ability to capture declarations by CEO for claim authenticity, accuracy and compliance.			
	To support integration of self-declarations into approval workflows.			
	To store the declarations as governance records within the UCMS.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
41.1.3. 4. d. iii.	**ADVANCE CLAIM / QUARTERLY CLAIM / MAJOR CONTRIBUTOR CLAIM**			
	Has the ability to process requests for Advance/Quarterly/Major Contributor Claim, subject to the terms as per the NOA.			
	To support validation of advance claims against contractual and financial safeguards (Performance Bonds).			
	To allow consolidated reporting of quarterly disbursements at project and fund level.			
	To allow automated tracking of recovery or settlement of advance claims.			
41.1.3. 4. d. iv.	**YEARLY CLAIM**			
	Has the ability to record, track and monitor Advanced, Quarterly and Yearly claims in a subsidiary ledger concept, ensuring all claims captured and tracked annually.			
	To develop the built-in auditor yearly claim template to accommodate with the requirements of the submissions.			
	It shall enable verification, reconciliation and reporting of all claim transactions to ensure accuracy, completeness and compliance with financial governance and audit requirements.			
	To verify the subsidiary ledger against the yearly claim submitted with required supporting documents (Auditor Working Template and Auditor Declaration).			
	To notify and produce reminders to DUSPs for timely submissions.			
	Able to receive and process EOT request for Yearly Claim submission and reply with official letter to DUSP approving the request.			
41.1.3. 4. d. v.	**AUDITORS' DECLARATION**			
	Has the ability to capture independent auditor verification on claim accuracy.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
	To support integration of auditor declarations as a compliance checkpoint before disbursement.			
	To allow storage and retrieval of declarations for governance and audit.			
41.1.3. 4. d. vi.	**AUDITORS' WORKING TEMPLATE**			
	Has the ability to provide a standardised template for audit review of claims.			
	To support consistency and comparability of audit checks across projects.			
	To allow linkage of completed templates with claims for traceability.			
41.1.3. 4. d. vii.	**SUPPORTING DOCUMENT**			
	Has the ability to upload and manage claim supporting evidence such as purchase orders, invoices, payment advice/vouchers, official receipts and reports.			
	To support validation of claims by attaching mandatory supporting documents.			
	To allow secure archival and retrieval of supporting evidence for audits.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
5.	**PAYMENT PROCESSING (DIGITAL SIGNATURE)**			
	a. The **Payment Processing Module** governs the approval and execution of payments arising from approved USP claims. It supports memo approvals, payment voucher generation and disbursement processing through secure and auditable workflows. b. Digital signatures are embedded within the approval processes to ensure authenticity, non-repudiation and compliance with internal governance and regulatory requirements. All payment-related activities are logged to provide a complete audit trail. c. Integration with Oracle EBS enables automated posting of approved payment vouchers, reducing manual re-entry, minimizing errors and ensuring synchronization between UCMS and the financial system. d. The submodules under Claim Management comprised of the below:			
41.1.3. 5. d. i.	**MEMORANDUM –** **PAYMENT REQUISITION (PREPARATION)**			
	To develop the built-in payment memorandum template for Advance, Quarterly/Major Contribution and Yearly Claim and customisations of the template.			
41.1.3. 5. d. ii.	**MEMORANDUM –** **APPROVAL FOR THE PAYMENT REQUISITION (DIGITAL SIGNATURE)**			
	Has the ability to manage approvals and execution of claim payments through the UCMS. (min: 3 layers).			
	To establish digital workflow including preparation, verification and approval of the payment memos using Digital Signature for secure signing and authentication.			
	To support compliance with financial governance by validating payments against approved claims and budgets.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
	To allow integration of payment approvals with USPFS and banking systems for traceability.			
41.1.3. 5. d. iii.	**PAYMENT VOUCHER (USPFS)**			
	Has the ability to integrate with USPFS to generate the payment voucher for disbursement and the accounting entries.			
	To ensure real-time reconciliation of payment vouchers (approved payment memorandums vs USPFS financial records).			
	To allow secure archival and retrieval of payment vouchers for audit and compliance reporting.			
41.1.3. 5. d. iv.	**LETTER TO DUSP**			
	To develop the built-in payment acknowledgement letter template to DUSP.			
	Able to record and maintain register of letters generated to DUSP.			
	Able to retrieve payment advices from the USP Fund's principal bank via system integration or API connection and record the details in UCMS.			
	Able to generate an acknowledgement letter using the standard UCMS template, with relevant payment information upon extraction.			
	Able to send the acknowledgement letter via email to the respective recipient using the registered email address stored in UCMS, with all actions recorded for audit purposes.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
6.	**REPORTS (DIGITAL SIGNATURE AND RPA)**			
	a. The **Reporting Module** provides comprehensive operational, financial and management reporting across UCMS. It delivers real-time visibility into project progress, financial utilization, claim status, payment execution and exceptions. b. Standardized dashboards and reports are available for DUSP performance, subcontractor progress, budget utilization and payment tracking, supporting informed decision-making and effective oversight. c. In addition, the module supports exception reporting and analytics powered by automation tools (e.g. RPA), enabling early detection of anomalies, risks and compliance gaps to strengthen governance and control. d. The submodules under Claim Management comprised of the below:			
41.1.3. 6. d. i.	**DUSP REPORTS**			
	Able to develop and generate key financial and performance reports.			
	To allow integration of DUSP reports with overall project and fund reporting dashboards.			
41.1.3. 6. d. ii.	**SUBCONTRACTOR REPORTS**			
	Has the ability to produce subcontractor key reports based on key unique identifiers.			
	Has the ability to detail breakdowns of subcontractor invoices.			
41.1.3. 6. d. iii.	**PAYMENT REPORTS**			
	Has the ability to provide reports on approved and executed payments within UCMS.			
	To support reconciliation of disbursements with USPFS records.			
	To allow payment status tracking for audit and compliance.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
41.1.3. 6. d. vi.	**PROJECT PROGRESS REPORTS**			
	Has the ability to generate reports on project status, deliverables and completion milestones.			
	Able to report the project progress for monitoring purposes.			
41.1.3. 6. d. v.	**FINANCIAL PROGRESS REPORTS**			
	Has the ability to produce reports on fund utilisation and financial performance of projects.			
	To support comparison of actual claim submission against budget and approved capped cost.			
	To allow fund-level reporting for management.			
41.1.3. 6. d. vi.	**BUDGET REPORTS**			
	Has the ability to generate reports on budget allocations, usage and remaining approved capped cost balances.			
	To support financial governance by linking budget reports with claims and payments.			
	To develop the built-in USP 5 years forecast template and variance analysis tools.			
41.1.3. 6. d. vii.	**EXCEPTION REPORTS**			
	Has the ability to automatically generate exception reports highlighting anomalies or compliance breaches.			
	To support robotic process automation for exception detection and escalation.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
7.	**DASHBOARD FUNCTION**			
	a. The **Dashboard Function** provides a centralized, real-time view of operational, financial, compliance and system performance across UCMS. Leveraging **Robotic Process Automation (RPA)** and system integrations, the dashboards consolidate data from multiple modules and external systems to deliver actionable insights, proactive monitoring and data-driven decision support for management and operational users. b. Dashboard features required in UCMS included:			
	i. Fund Position Dashboard (High Level) ii. Project Delivery/milestone Dashboard (High Level) iii. Payment Disbursement Dashboard (High Level) iv. Compliance & Exception Dashboard v. Integration & System Dashboard vi. Project & Site Monitoring Dashboard vii. Claims & Payment Status Dashboard viii. Budget Utilisation Dashboard ix. DUSP/Subcontractor Performance Dashboard x. Security & Backup Monitoring Dashboard xi. Exception & Workflow Dashboard xii. Dynamic Data Export Report (Excel (.xlsx downloadable)			
8.	**AUDIT TRAIL**			
	a. The Audit Trail function records a complete, secure and time-stamped log of all user and system activities within UCMS, ensuring transparency, accountability and traceability across all modules.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
	b. It captures key actions such as data changes, approvals, payments, integrations and automated processes, together with essential metadata for audit and compliance purposes. c. This function supports governance, risk and compliance by enabling activity review, transaction reconstruction and regulatory verification, with protected records and search and reporting capabilities for audits and management oversight. d. Has the ability to automatically log and timestamp all user activities, transactions and system changes for accountability. e. To enable traceability of actions, ensuring transparency and compliance with governance and regulatory requirements. f. To support audit reviews and investigations by providing a chronological record of activities for verification and reporting purposes.			
9.	**SELF SERVICE APPLICATION**			
	a. The Self-Service Application enables authorized users, including DUSPs, subcontractors and internal MCMC users, to independently submit, manage and track USP-related transactions within UCMS through secure, role-based access. b. It supports claim submissions, document uploads, approval and payment tracking, real-time notifications and guided workflows with built-in validations to ensure accuracy and compliance. c. All activities are secured through centralized authentication, governed by role-based permissions and fully captured in the audit trail, reducing manual intervention and enabling a standardized, efficient and scalable digital operating model.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
	d. Provides a secure and user-friendly interface for users to access, update and submit claim or required documents/information. e. Provides a secure and user-friendly interface for users to access, update and submit claim or required documents/information. f. To support real-time validations and automated feedback to users, enhancing accuracy and turnaround time.			
10.	**VALUE ADDED FUNCTION**			
	a. The Value-Added Function enhances UCMS beyond core transactions by introducing intelligent analytics, automation and governance capabilities that support better decision-making and operational efficiency. b. It leverages historical claims, payment and project data to provide trend analysis, predictive insights and early detection of risks, anomalies, cost overruns and compliance issues, enabling proactive management and timely intervention. c. Automation features such as RPA, smart validations and exception handling reduce manual effort, improve turnaround time and strengthen control through automated reconciliations, alerts and performance monitoring. d. The function also supports long-term sustainability by enabling scalability, configurable business rules, performance benchmarking and future system enhancements, ensuring UCMS remains adaptive to evolving regulatory, operational and technological requirements. e. Incorporates intelligent features such as analytics, dashboards, or predictive tools to improve decision-making and operational efficiency.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
	f. To enhance the overall functionality of the system by integrating capabilities that go beyond core requirements. g. To provide flexibility for future enhancements, ensuring the system remains relevant and adaptable to evolving needs.			
41.1.4	**SYSTEM INTEGRATION**			
	a. Integrate the platform with internal system which is USP Financial System (Oracle Platform) b. Ensure secure API exchange and data validation mechanisms. c. Centralized authentication via Active Directory with seamless integration to Oracle, and Digital Signature, ensuring data integrity and synchronization.			
41.1.5	**AI-POWERED DOCUMENT VALIDATION AND FRAUD DETECTION**			
	a. Develop and implement an intelligent document analysis engine that uses AI and machine learning ("ML") algorithms to validate supporting documents submitted by end-users. b. Automate the verification of document information and data consistency using Optical Character Recognition ("OCR"). c. Extract key information from uploaded documents. d. Detect document tampering, duplication or forgery. e. Identify expired, altered, or mismatched documents. f. Develop machine learning models to detect fraudulent claims. g. Support configurable fraud thresholds. h. Integrate AI validation into claim submission and approval workflows. i. Enable real-time and batch processing. j. Provide AI-generated insights and record all AI decisions in audit logs.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
41.1.6	**SECURITY AND COMPLIANCE**			
	a. Implement strong access control such as Azure AD Single Sign-On (SSO), multi-level access control and encryption of data at rest and transit.			
41.1.7	**SYSTEM TESTING AND ACCEPTANCE**			
	a. To conduct three (3) phases of testing: i. User Acceptance Test (UAT). ii. Final Acceptance Test (FAT). iii. System Integration Testing (SIT). b. To fix any bugs and errors captured during the UAT and FAT will need to be fixed within the agreed project timeline. To ensure the application and system meet the requirements, specification, functionality and performance needs.			
41.1.8	**PENETRATION TESTING**			
	a. The Tenderer shall perform Pentest by a recognised PENTEST company and remediate all the findings prior to any go-live or production deployment. b. Must include both Blackbox and Whitebox testing. c. Web Application Penetration Test (WAPT) that includes: i. Web Services Identification ii. Application Process Flow Assessment iii. Web Application Vulnerabilities Tests & Findings iv. Exploit Test & Verification			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
	d. To provide sign-off report (Final Report) i. Must be signed by the Pentester and the Developer ii. Items to be included in the report: • Executive Summary • Introduction • Scope • Vulnerability Summary: ○ Assessment Summary (no. of Critical, High, Medium and Low) ○ Post Review Summary (no. of Critical, High, Medium and Low) • Conclusion			
41.1.9	**CHANGE MANAGEMENT**			
	a. To propose and provide change plan documentation, checklist and report. b. To adhere to the change management procedure: (i) During Project Implementation – Steering Committee (consisted of MCMC and Successful Tenderer) approval (ii) After Go Live – Change Advisory Board (CAB) approval			
	c. The Successful Tenderer to propose and analyse the as-is and the to-be processes, generate the process mapping and the new structure on resources allocation.			
41.1.10	**DEPLOYMENT**			
	a. Deploy the system on staging and production environments compliant with MCMC's hosting policy. b. Conduct Go-Live commissioning and final data validation.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
41.1.11	**DOCUMENTATION AND HANDOVER**			
	a. Prepare and deliver technical documentation, user manuals and training materials for the administrator. b. Conduct administrator training sessions. c. The source code should be handed over to MCMC once the development is completed.			
41.1.12	**BACKUP AND RESTORE REQUIREMENTS**			
	a. The Tenderer shall recommend the backup storage and propose a backup & restore procedure for the system application and database and the dimensioning used for the duration of the backup and restoration process. b. The Tenderer shall provide comprehensive documentation on backup and restore procedures. c. System backup and restore plan must be comprehensive with daily, weekly, monthly and yearly backup schedules.			
41.1.13	**TRAINING**			
	a. Prepare and deliver user manuals and training materials for the end-user. b. Conduct end-user training sessions. c. Collect feedback and perform system enhancements during warranty support period with no additional charges if required. d. The Tenderer must provide sufficient training to ensure effective knowledge transfer, enabling MCMC personnel, service providers, and outsourcing partners to fully maintain, fine-tune, configure, and enhance the solution after the Go-Live date.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
	e. Knowledge transfer must include, but is not limited to, product training (e.g., software, development tools), project team training, helpdesk training/briefing, system administration training, and infrastructure training.			
41.1.14	**LICENSE MANAGEMENT**			
	a. The successful Tenderer must quote any related software that is part of the UCMS solution (e.g. digital signature license, database license, application server, reporting tool, etc.) b. The Successful Tenderer shall provide UCMS Administrator licenses subscriptions for a minimum of 60 users (internal) and UCMS licenses subscriptions for approximately 180 – 250 users (external) per year. c. Application Server: Specify the application server software needed to host and run the UCMS effectively. Mention any additional licensing or setup costs associated with the application server. d. Reporting Tool: Propose a reporting tool that enables comprehensive and customisable reporting capabilities for UCMS data analysis and decision-making. Provide information on licensing and integration costs, if any. e. Integration Tools: If there are any specific integration tools required for integrating the UCMS with other systems (USPFS & Digital Signature), the Tenderer should specify them and include relevant pricing details. f. Customisation Services: If any additional customisation or development work is required for the UCMS to meet MCMC's future needs, the Tenderer should be able to specify feasibility details on allowed customisation of the system.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
41.1.15	**POST-IMPLEMENTATION SUPPORT**			
	a. Provide 12 months of warranty support with defect rectification and performance monitoring continue with the 36 months of extended Support & Maintenance services. b. Assign a support focal point during the warranty period. c. Adhere to the following minimum SLA standards throughout the support period: (i) System Availability: Minimum 99.9% uptime per calendar month (ii) Incident Response Time: • Critical (System down): Response within 30 minutes, resolution within 4 hours. • High (Major functionality issue): Response within 30 minutes, resolution within 6 hours. • Medium (Minor issues or intermittent errors): Response within 30 minutes, resolution within 12 hours. • Low (Cosmetic/ UI/ non-urgent): Response within 4 hours, resolution within 24 hours. (iii) Support coverage: 24 hours / 7 days a week (iv) Escalation procedures: Clear process for issue escalation, including points of contact, timelines and tracking. (v) Reporting: Submit a monthly support performance report detailing system uptime, incidents, response and resolution metrics and improvement actions taken.			
42	**OTHER WORK REQUIREMENTS**			
42.1	The Successful Tenderer shall carry out project kick-off and progress meetings (e.g., weekly sprints, monthly reviews), including documentation, prepare meeting minutes (MoM) and provide accurate and timely inputs to MCMC as and when required.			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
42.2	The Successful Tenderer shall provide a dedicated Project Manager to coordinate every aspect of the Work, including internal coordination, stakeholder engagement, documentation management and issue escalation.			
43	**PERSONNEL**			
43.1	a. The Tenderer shall comprise at least the following key personnel:			

Key Personnel	Key Expertise	Minimum Experience	Preferred Qualifications
Project Manager	Project planning, risk & budget control, stakeholder and vendor management	7+ years managing IT/financial system projects	PMP / PRINCE2 certification; experience delivering claims or grant systems
Solution Architect	System architecture, security design, integrations, data governance	8+ years in enterprise architecture	Prior design of financial, ERP, or claims systems
System Analyst	System requirements analysis, functional & technical specifications, workflow design	5+ years in system analysis for financial or workflow-based systems	Experience translating claim business rules into system specifications
UI/UX Designer	Workflow automation, secure application development, dashboards & reporting	5+ years in software development	Experience building financial or transaction-based systems

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
45.	**PAST PROJECT EXPERIENCES**			
45.1	The Tenderer shall provide detailed information on past project experience within the last 5 years.			
46	**REPORTS AND PRESENTATIONS**			
46.1	MCMC may require the Successful Tenderer to prepare reports and/or presentations in relation to the Work for internal briefing, stakeholder consultations and management updates.			
46.2	All reports and presentations that are required to be prepared by the Successful Tenderer shall be duly submitted within the specified timeline.			
46.3	The Tenderer is also required to provide detailed documentation of each component (timeline, design, hardware, software, licence, etc.)			
47	**DURATION**			
47.1	The Work (as a whole) shall be completed within **67 months** from the date of the Letter of Award ("LOA"), unless the timeline is further extended by MCMC accordingly. Tenderer to provide a detailed project timeline, including a delivery schedule and implementation plan. The detail of The Work as per table below: **No.** / **Details** / **Months** 1 / Development / 16 2 / Testing, User Acceptance Test and Penetration Testing / 3 3 / Warranty Support / 12 4 / Extended Support and Maintenance / 36 **Total** / **67**			

Paragraph/ Subparagraph (1)	Paragraph/ Subparagraph Item (1)	Tenderer's Response/ Proposal (Complied / Not Complied) (2)	Remarks (3)	References to Annexures (If Any) (4)
47.2	In this respect, the Work may be subject to milestones, which may have specific timelines that the Successful Tenderer needs to comply with.			
48	**INDICATIVE PRICE**			
48.1	The indicative price for the Work is **Ringgit Malaysia Three Million Five Hundred Thousand Only (RM3,500,000.00)** inclusive of any duties or taxes imposed by the Government of Malaysia.			
48.2	The indicative price stated above is only an estimated value and does not bind MCMC or any other party so as to clear any confusion or doubt that may arise.			
48.3	MCMC does not guarantee that the Tenderer will be selected or be able to complete the Work by mere reliance on the indicative price.			
49	**INTELLECTUAL PROPERTY**			
49.1	MCMC shall be the sole and absolute owner of any customisation for the application, and all source code and documentation should be handed over to MCMC upon the issuance of Certificate of Final Acceptance sign off.			
49.2	Tenderer must ensure that all intellectual property rights in and to UCMS are fully assigned to the MCMC upon the date stipulated.			
50	**ADDITIONAL REQUIREMENTS**			
50.1	The Successful Tenderer shall be available on standby to address any ad hoc queries related to the scope of work and shall provide the necessary response in a timely manner.			
50.2	The Successful Tenderer shall submit the comprehensive quotation detailing the cost for implementation and the extended support services for the whole Work duration of 67 months. MCMC has absolute discretion in deciding whether to accept, reject or amend the price quoted during proposal submission.			

APPENDIX H

1. LIST OF ALL PERSONNEL THAT SHALL UNDERTAKE THE WORK

No.	Name	Position and Roles in the Team	Experiences / Years (Relevant to this Project)	Certification (Relevant to this Project)	Remarks

2. LIST OF EXPERIENCES

(Please provide list of experiences within the last 5 years with brief description on previous projects related to the Tender)

No.	Previous Client (s)	Project Description (to include brief product details)	Date of Award and Duration (Month / Year)	Years of Usage	Client Reference and Contact	Manpower

1. FINANCIAL CHECKLIST

No	Document
1	**Appendix A** Statement of Compliance to the Terms and Conditions of Tender and Post-Tender Award
2	**Appendix B** Form of Tender Document
3	**Appendix C**
	i. Form for Business Profile
	ii. Article of Association/Memorandum of Association (if applicable)
	iii. Certified Copy of Tenderer's CCM Certificate
	iv. Certified true copy of the Tenderer's valid Sijil Akuan Pendaftaran Syarikat Bumiputera issued by the Ministry of Finance (if applicable);
	v. Certified Copy of full version of Tenderer's audited financial statement for the last three (3) years
	vi. Certified copy of the Tenderer's certified Bank Account Statement for the last three (3) months (January 2026, December 2025 and November 2025)
	vii. Company profile of the Tenderer (to be sent together with the experience of the company).
	viii. **FORM C** Financial Details
	ix. **FORM CA** Financial Institutions Report on the Financial Status of the Tenderer
4	**Appendix D** Schedule of Price
5	**Appendix E** i. MCMC Tenderer's Declaration ii. Letter of Authorisation
6	**Appendix F** Declaration of Interest by Tenderers
7	**A Digital Copy of the Financial Submission** - Searchable PDFs from the scanned documents - Editable Working Files in the form of Microsoft Excel Please ensure that the Working File downloaded from MSMART portal is completed and submitted as part of the Tender Submission

On Behalf of the Company:
